8 BOARD OF EDUCATION: COMMITTEE REPORTS, ANNOUNCEMENTS, REQUESTS, DEBRIEF

8.1 Board of Education Committee Reports, Announcements, Requests, Debrief and Discussion

AND DISCUSSION

Type	Action, Discussion, Information
Fiscal Impact	No

REQUESTS: This is an opportunity for the Board of Education to suggest items for placement on future agendas and to review Board requests.
 Approval from the majority of the Board will be required for direction to be provided to the Superintendent.
DEBRIEF AND DISCUSSION: The Trustees may debrief and discuss items.

Background:
 Each year the Board of Education members liaise with schools and committees in order to build relationships, hear from staff, students, and families, and act as a conduit for information to and from the schools.
 The following derives directly from the Board approved "Governance Team Handbook"
 Authority is Collective, Not Individual:
 The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.
 A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.
Bringing New Ideas Forward
 The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.
 Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.
 When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.
 Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.
 The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

The First Interim Budget Report is a "snapshot" in time of the District's revenue and expenditure forecasts for the current fiscal year as well as a projection of the two subsequent fiscal years. It is a good time to adjust the budget based upon any known changes. The First Interim Budget Report covers the period of time from July 1 through October 31 each fiscal year.

AB 1200 requires all California school districts to submit two interim reports to their County Office of Education. This year, the First Interim Report is due to the Alameda County Office of Education (ACOE) by December 15, 2024.

Regulation updated to reflect current law regarding restoration of the reserve threshold and to add material regarding submission of audit report pertaining to federal funds to the federal Office of Management and Budget.

(AR revised 7/10)

Updated regulation deletes detailed discussion of the contents of the audit report since it is the responsibility of the auditor to complete that report. Regulation also adds new section on "Fund Balance" reflecting GASB Statement 54, which makes changes in the way fund balances in the general fund must be reported in external financial reports.

(Revise AR 11/09)

Regulation updated to add Note in "Interim Reports" section reflecting NEW LAW (ABX4 2) which prohibits the County Superintendent of Schools or the State Superintendent of Public Instruction from assigning the district a qualified or negative certification based substantially on a projected loss of federal American Recovery and Reinvestment Act funds in the 2011-12 fiscal year. Section on "Audit Report" revised to reflect NEW LAW (SB 680) which requires the audit for a district participating in the "school district of choice" program to include a review of compliance with specified program requirements.

(Revise BP/AR 11/08)

Updated policy contains list of Board responsibilities with respect to various financial reports and deletes section on Fiscal Policy Team. Updated regulation revises section on "Interim Reports" to add state criteria and standards, specify that the reports must be submitted using the state's standardized account code structure, and to delete paragraph re: allowing county office of education 10 days to review proposed collective bargaining agreements if district has a qualified or negative certification (previously moved to BP 4143/4243 - Negotiations). Section on "Audit Report" revised to add language encouraging the Board to review the report prior to the date specified in law. Regulation also adds new section on "Negative Balance Report" and revises section on "Non-Voter-Approved Debt Report" to reflect NEW LAW (AB 2197) which establishes a timeline for notice of the issuance of certificates of participation. Section on "Other Postemployment Benefits Report" expanded to clarify reporting obligations under GASB 45 and to delete material on prefunding the debt (moved to BP 3100 - Budget).

14.12 POLICY UPDATE: Administrative Regulation 4154 Health and Welfare Benefits

Type	Action (Consent)
Fiscal Impact	No
Recommended Action	The recommendation is that the Board of Education approve the updated Administrative Regulation 4154 Health and Welfare Benefits.

Purpose:
The purpose is for the Board of Education to review the recommended changes and approve the updated Administrative Regulation 4154 Health and Welfare Benefits.

Background:
The language is sanctioned by the California School Board Association. California School Board Association notations can be seen in the documents for the benefit of the Board. These notations will be removed from the final, Board approved policies. The Ad Hoc Policy subcommittee and the administration have reviewed the recommended updates for accuracy and made

revisions to reflect district practice. If any revisions are recommended by the Board, the policy will be brought back for an additional reading.

(BP/AR revised)

Policy and regulation updated to reflect the federal Patient Protection and Affordable Care Act, applicable to districts with 50 or more full-time employees. Policy includes information about the calculation of full-time employees for the purpose of determining the applicability of the Act and reflects requirements to provide an affordable health insurance plan which includes specified minimum coverage and pays at least 60 percent of the medical expenses covered under the plan. Policy also reflects NEW LAW (SB 1306, 2014) which defines "marriage" as a personal relationship arising out of a civil contract between two persons rather than a man and a woman. Regulation adds section on "Affordability of Health Coverage" which includes methods by which districts may determine that each employee's contribution for employee-only health coverage does not exceed 9.5 percent of his/her household income.

(BP/AR revised 7/12)

Updated policy and regulation delete material related to temporary premium subsidies for COBRA/Cal-COBRA for "assistance eligible individuals" who were involuntarily terminated, as the date for program eligibility has now passed. Policy also reflects the federal Patient Protection and Affordable Care Act which prohibits employers from providing higher benefits to "highly compensated" individuals, as defined. Regulation also reflects legal requirement that an eligible retiree or surviving spouse may be denied the opportunity to enroll for benefits if he/she does not do so within 30 days of losing active coverage, and reflects change of age at which person ceases to be a "dependent child" for purposes of eligibility for COBRA/Cal-COBRA.

(Revised AR 3/10)

Updated regulation (section on "Temporary Subsidized Premium for COBRA/Cal-COBRA") reflects NEW FEDERAL LAW (P.L. 111-144) which extends eligibility for the subsidized COBRA/Cal-COBRA premium to include employees (1) who were involuntarily terminated (other than by reason of gross misconduct) between September 1, 2008, and March 31, 2010, or (2) whose COBRA eligibility was caused by a reduction in hours and who subsequently experienced an involuntary termination between March 2, 2010, and March 31, 2010. Regulation also reflects NEW FEDERAL LAW (P.L. 111-118) which extends the period of the subsidy to 15 months.

(Revise BP/AR 7/09)

Policy and regulation updated to clarify the effect of state and federal laws on benefits for registered domestic partners and to reflect NEW FEDERAL LAW (American Recovery and Reinvestment Act) re: temporary subsidized premium for COBRA and Cal-COBRA for "assistance eligible individuals." Policy also clarifies the requirements for confidentiality of health records and expands the material on retired employees to include other individuals eligible under COBRA or Cal-COBRA. Regulation also revises section on "COBRA/Cal-COBRA Continuation Coverage" to more directly reflect law re: program eligibility based on reduction in hours of employment.

Type Discussion, Information

Purpose: Board of Trustees to discuss proposed California School Board Association (CSBA) and recommendations by the Adhoc Committee for Bylaw 9150 Student Board Member.

Background: On November 6, 2024 the Board of Education discussed Bylaw 9150. During this discussion members discussed a more inclusive process that would allow both high schools to have representation and to learn more about the governmental process and for the board to have a collaborative discussion that is inclusive of student voice. In order to enhance communication and collaboration between the Governing Board and the student body and to teach students the importance of civic involvement, the NUSD Board supports the participation of high school students in district governance. The role of student board member has evolved and the CSBA recommendation now offers options within Bylaw 9150 for the selection process which can expand the opportunity to more students of multiple high schools to be nominated and selected.

Board Policy 1114 - District-Sponsored Social Media

Policy updated to align with current terms, language, and practice related to the use of social media. Additionally, policy updated to expand the Governing Board's philosophical statement to recognize the value of sharing district information with families and the community, and the requirement to ensure that content posted by the district on an official district social media account is accessible to individuals with disabilities. In addition, policy updated to clarify that an official district social media account does not create an open public forum or otherwise guarantee an individual's right to free speech even if one or more features on the account permit interaction with and between members of the public. Policy also updated to expand instances where students or staff are subject to discipline to include engaging with an official district social media account in a manner that violates board policies and administrative regulations.

Administrative Regulation 1114 - District-Sponsored Social Media

Regulation updated to align with current terms, language, and practice. Additionally, regulation updated to clarify that a social media account that contains content related to the district or comments about district operations but that has not been created based on authorization or direction from the Superintendent or designee is not an official district social media account. In addition, regulation updated to reflect NEW COURT DECISION (Lindke v. Freed), in which the U.S. Supreme Court held that a district official who limits or prevents critics from speaking, such as by blocking them on social media or deleting their posts, violates the First Amendment only if the official (1) has been granted the power to speak on behalf of the district and (2) claims to be actually exercising that power. Regulation also updated to clarify and expand the conditions under which a user may interact with an official district social media account, including that violations may be reported to the appropriate social media platform, law enforcement, or other third parties, as appropriate, consistent with the Cyberbullying Protection Act, and that a user may be suspended when the listed conditions are met.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

12.3 Name change for Crossroads Independent Study to Crossroads High (Alternative)

Type Action (Consent), Information

Fiscal Impact No

Recommended For the Board of Education to approve the name change for Crossroads Independent Study to

Action Crossroads High (Alternative).

Purpose:

The purpose is to formally request a name change for Crossroads Independent Study to Crossroads High (Alternative). This change is essential as part of our strategic efforts in preparation for the Western Association of Schools and Colleges (WASC) accreditation. It is vital that both the Newark Unified School District website and the Crossroads school website reflect this updated name.

Background:

The California Department of Education maintains an official directory of schools, and the name "Crossroads High (Alternative)" is the recognized designation. As such, it must be accurately reflected in all WASC accreditation documentation and public materials.

Aligning our name with the California Department of Education's directory not only ensures compliance with educational codes but also reinforces our commitment to transparency and clarity in our communication with stakeholders.

As we approach the final stages of the WASC accreditation process, it is crucial that all documentation--both internal and external--accurately reflects our official name. The WASC committee will finalize their findings by November 15, and having the updated name on both the Newark Unified School District and Crossroads websites will be critical for a successful

accreditation outcome.

The following derives directly from the Board approved "Governance Team Handbook" Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Type	Action
Preferred Date	Oct 15, 2024

With these departures, the district has been left without sufficient staff to manage the caseload of students requiring Special Education services. To ensure continued compliance with state and federal requirements and maintain support for students with IEPs, Newark Unified School District seeks to temporarily address this gap through its partnership with Ed Theory Staffing Services. NUSD has an existing Independent Contractor Agreement (ICA) with Ed Theory, approved on June 25, 2024, for the 2024-2025 school year. This Addendum adds a Special Education Case Manager to provide 30 hours of service per week from October 16, 2024, to May 30, 2025. Approval of this Addendum is essential to ensure that students continue to receive the case management and support they need despite the staffing shortage.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed

and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas. Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

13.3 RESOLUTION 2024.25.08 - Sufficiency of Instructional Materials

Type	Action
Absolute Date	Oct 01, 2024
Fiscal Impact	No
Recommended	The recommendation is that the Board of Education approves Resolution 2024.25.08 -
Action	Sufficiency of Instructional Materials
Goals	1b. Student Achievement

Purpose:

For the Board of Education to approve Resolution 2024.25.08 - Sufficiency of Instructional Materials

Background:

To certify compliance with Education Code Section 60119 (as revised by Chapter 704, Statutes of 2006 and California Code of Regulations (CCR), Title 5, Section 9531). In order to be eligible to receive instructional materials funds, the governing board of each district and county office of education is required to hold an annual public hearing and adopt a resolution stating whether each pupil in the district has sufficient textbooks or instructional materials in specified subjects that are aligned to the academic content standards and consistent with the content and cycles of the curriculum frameworks adopted by the state board. The public hearing was held on September 17, 2024.

Under EC Section 60119, the governing board of every local educational agency that receives state instructional materials funds must hold an annual public hearing before the end of the eighth week from the first-day pupils attend school for that year. At the public hearing, the governing board must make a determination as to whether each pupil in each school has sufficient textbooks or instructional materials, or both, that are aligned to the content standards and are consistent with the content and cycles of the curriculum framework adopted by the State Board of Education in reading/language arts, mathematics, science, and history-social science.

Site principals reviewed the site's sufficiency of materials and affirmed. Governing boards that have met the requirements of Education Code Section 60119 and have also certified compliance with the Instructional Materials Funding Realignment Program (IMFRP) requirements regarding the provision of adopted standards-aligned instructional materials for all students (Education Code Section 60422) may spend 100% of any remaining IMFRP funds from that years allocation for other approved purposes.

Student teachers and interns are able to learn, practice teaching, and fine-tune their craft under the direct supervision of a master teacher. The opportunity to student teach or intern in the District benefits both the student teacher and the District. As vacancies become available in the district, it is invaluable to have the opportunity to observe directly student teachers and interns who may be eligible to interview for vacancies and observe how well they fit into the culture of Newark.

Additionally, policy updated to reflect NEW LAW (AB 1165, 2023) which encourages districts to have a student who has been suspended, or for whom other means of correction have been implemented pursuant to Education Code 48900.5 for an incident of racist bullying, harassment, or intimidation, as well as the victim, to engage in a restorative justice practice suitable to address the needs of both the victim and the perpetrator.

Administrative Regulation 5145.3 - Nondiscrimination/Harassment

Regulation updated to provide that the individual identified as the Compliance Officer for coordinating the district's efforts to comply with applicable state and federal laws and to answer inquires regarding the district's nondiscrimination policies be the same as the Compliance Officer specified in Administrative Regulation 1312.3 - Uniform Complaint Procedures as the responsible employee to handle complaints alleging unlawful discrimination of a student, and the Title IX Coordinator specified in Administrative Regulation 5145.7 Sex Discrimination and Sex-Based Harassment as the responsible employee to handle complaints alleging unlawful sex discrimination and sex-based harassment. Additionally, regulation updated to provide that employees are required to report incidents of prohibited discrimination within one workday, which may be modified to reflect the district's timeline, in order to maintain consistency of such reporting requirements across the policy manual, and to move the section "Issues Unique to Intersex, Nonbinary, Transgender and Gender-Nonconforming Students," to Administrative Reg

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

9.2 U.S. Constitution Day September 17, 2024

Type Information
Goals

MISSION: The Newark Unified School District will inspire and educate all students to achieve their full potential and be responsible, respectful, and productive citizens.

Purpose:

Recognize the importance and history of the Constitution. The Superintendent has prepared an activity to celebrate this day and test your knowledge of the Constitution.

Background:

In September 1787, the Founders signed the most influential document in American history, the U.S. Constitution. "We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America." With these words, We began our great experiment with Democracy 237 years ago. In honor of this momentous date, Constitution Day and Citizenship Day were established as a federal day of observance to commemorate the signing of the United States Constitution on September 17, 1787. In declaring the first Citizenship Day in 1952, President Truman wrote in his Proclamation 2984 "Whereas it is most fitting that every citizen of the United States, whether native-born or foreign-born, should on September 17 of each year give special thought and consideration to his rights and responsibilities under our Constitution." Congress would later change the designation of Citizenship Day to Constitution Day and Citizenship Day in 2004.

10 STAFF REPORT

10.1 Attendance Update/Awareness

Type Information

Purpose:

Educational Services will update the Board on attendance data, goals, and progress monitoring tools.

Background:

Our country, state, and county are facing an attendance crisis. Prior to the pandemic, eight million students were chronically absent (missing 10% or more of the school year). That number has more than doubled. The adverse social, emotional and academic impact of missing too much school is highest among students and families most affected by educational inequities. Left unaddressed, chronic absence will dramatically increase the number of students struggling with reading, writing, and math and escalate drop out rates. (Attendance Works) Newark Unified School District has been identified for Differentiated Assistance, along with many other districts in Alameda County, in large part due to continued high post-pandemic chronic absence rates. While the district continues to implement covid-19 protocols and procedures, Ed Services seeks to implement a plan that will continue to increase positive attendance rates back to pre-pandemic levels. This presentation provides a summary of our current attendance data and district-wide improvement initiatives.

11 PUBLIC HEARINGS

11.1 Public Hearing: Sufficiency of Instructional Materials

Type Procedural
Goals 1b. Student Achievement
MISSION: The Newark Unified School District will inspire and educate all students to achieve their full potential and be responsible, respectful, and productive citizens.
VISION: The Newark Unified School District, in partnership with the community, will be a model of world-class education that develops the unique abilities of every student.

Purpose:

For the Board of Education to provide an opportunity for the public to speak on the Sufficiency of Instructional Materials Resolution.

Background:

To certify compliance with Education Code Section 60119 (as revised by Chapter 704, Statutes of 2006 and California Code of Regulations (CCR), Title 5, Section 9531). In order to be eligible to receive instructional materials funds, the governing board of each district and county office of education is required to hold an annual public hearing and adopt a resolution stating whether each pupil in the district has sufficient textbooks or instructional materials in specified subjects that are aligned to the academic content standards and consistent with the content and cycles of the curriculum frameworks adopted by the state board. This is an annual process. Under EC Section 60119, the governing board of every local educational agency that receives state instructional materials funds must hold an annual public hearing before the end of the eighth week from the first-day pupils attend school for that year. At the public hearing, the governing board must make a determination as to whether each pupil in each school has sufficient textbooks or instructional materials, or both, that are aligned to the content standards and are consistent with the content and cycles of the curriculum framework adopted by the State Board of Education in reading/language arts, mathematics, science, and history-social science. Governing boards that have met the requirements of Education Code Section 60119 and have also certified compliance with the Instructional Materials Funding Realignment Program (IMFRP) requirements regarding the provision of adopted standards-aligned instructional materials for all students (Education Code Section 60422) may spend 100% of any remaining IMFRP funds from that year's allocation for other approved purposes. The Board will later have the opportunity to approve Resolution 2024.25.08 will be on the October 1, 2024 Consent Agenda Non Personnel - Sufficiency of Instructional Materials.

13.2 Approval of Single Plan for Student Achievement (SPSA) For Birch Grove Primary and Kennedy Elementary

Type	Action, Discussion
Fiscal Impact	Yes
Budgeted	Yes
Budget Source	LCFF, Title 1, and LRE
Recommended	The recommendation is that the Board approve the Single Plans and budget for Student
Action	Achievement (SPSAs) for 2024-25 for Birch Grove Primary and Kennedy Elementary Schools as presented.
Goals	1b. Student Achievement

Purpose:
Each year, schools prepare a Single Plan for Student Achievement (SPSA) which includes the school goals, student achievement and school climate data, improvement activities/strategies and budgets. Annually, site SPSAs are approved by the School Site Council at each site.

Background:
The School Plan for Student Achievement (SPSA) is a plan of action to improve student academic performance by coordinating all educational services and resources. Pursuant to California Education Code Section 64001, schools that receive state and federal funds are required to consolidate all school plans into a SPSA. SPSA specifics are also included in the Federal Program Monitoring process. The SPSA is used to meet planning requirements for Title I School wide Programs (SWP), Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI).
California Education Code (EC) Section 64001 requires that a School Site Council (SSC) develop the SPSA. It is the goal of Newark Unified School District (NUSD) to provide equitable opportunities to each of our students and school sites. Each site-specific SPSA and the district-wide Local Control and Accountability Plan (LCAP) is a roadmap created in partnership with all district stakeholders to achieve our vision and mission.
The SPSAs are informed by data. Each goal area includes data analysis on current measures across student subgroups and on outcome measures to determine progress. Local and State data are used to develop each goal and research is used to identify best practices to address student needs. Progress is evaluated through the School Site Councils (SSCs). The SSCs meet to review SPSA goals, actions, and budgets. California Dashboard data and other local data is used to measure the impact of actions on student achievement. The principal and staff evaluate academic progress at minimum three times a year through an academic Professional Learning Community (PLC) model with benchmark data. Educational Partners are key in the development of the SPSAs. California Education Code Section 64001 requires that the School Site Council (SSC) develop the SPSA. The SSC's responsibilities include approving the plan, recommending it to the local governing board for approval, monitoring its implementation, and evaluating the effectiveness of the plan at least annually. The SSC must seek the review, advice, and certification of applicable advisory committees, including the English Learner Advisory Committee (ELAC).

Board Policy 6164.2 - Guidance/Counseling Services

Policy updated to reflect NEW LAW (AB 278, 2023) which establishes the Dream Resource Grant Program with the goal of creating Dream Resource Centers at schools that serve students in grades 9-12, and NEW LAW (SB 223, 2023) which provides flexibility for pupil personnel services holders to receive authorization to provide child welfare and attendance services by either completing a Commission on Teacher Credentialing (CTC)-approved program of supervised field experience, or a CTC-approved program of professional preparation offered by a local educational agency. Additionally, policy updated to clarify that (1) guidance counseling regarding school programs and career, vocational, or higher education opportunities may not be differentiated based on any protected category specified in law or board policy, and that (2) the district may not use testing or other materials that permit or require impermissible or unlawful differential treatment of students, unless such different materials cover the same occupations and interest areas and the use of such materials is essential to the elimination of bias and discrimination. In addition, policy updated to reflect NEW LAW (AB 1173, 2023) which requires a district that serves students in any of grades 9-12 that is planning to hold a college or career fair to notify each community college district that has overlapping jurisdiction of the date, time, and location of the fair, and provide an opportunity for the community college district to participate. Policy also updated to reflect NEW LAW (AB 665, 2023) which aligns a section of the Family Code with a related Health and Safety Code section which allows a minor age 12 or older to consent to outpatient mental health counseling or treatment services without parent/guardian consent if, in the opinion of a school psychologist or other professional person, the minor is mature enough to participate intelligently in the services, without having to establish that the minor would present a danger of serious physical or mental harm to themselves or others without the mental counseling or treatment services or that the minor is an alleged victim of incest or child abuse; however the child's parent/guardian is required to be involved unless the professional person determines after consulting with the minor that it would be inappropriate. Policy also updated to delete the requirement for school counselors to assist in the development of the comprehensive safety plan since this is not required by law, but maintained the requirement for school counselors to assist in the development of the disaster preparedness plan, which is part of the comprehensive safety plan.

Purpose:

COMMITTEE REPORTS: The Trustees will provide an update, if available, on the committees of which they are members.
ANNOUNCEMENTS: The Trustees may acknowledge or recognize specific programs, activities, or personnel at this time.
REQUESTS: This is an opportunity for the Board of Education to suggest items for placement on future agendas and to review Board requests.
Approval from the majority of the Board will be required for direction to be provided to the Superintendent.
DEBRIEF AND DISCUSSION: The Trustees may debrief and discuss items.

Background:

Each year the Board of Education members liaise with schools and committees in order to build relationships, hear from staff, students, and families, and act as a conduit for information to and from the schools.

Board Committees 2023-24

Table with columns: Board Adopted on 12/18/2023, Representative, Alternate. Rows include Mission Valley Regional Occupational Center/Program (ROC/P), Executive Board, Regional Policy Board of Special Education Local Plan Area (SELPA), Newark Teacher Induction Advisory Council (Formerly EBIC), Audit Committee, Bond/Parcel Tax Committee, City of Newark NUSD Liaison Committee.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

13.4 K12 Workforce Pathway Coordinator LEA Host Contract - Ohlone CCD

Recommended	The recommendation is that the Board of Education approves the K12 Workforce Pathway
Action	Coordinator LEA Host Contract (Ohlone CCD) as presented.

Purpose:
To approve Strong Workforce Program K12 Pathway Coordinator LEA Host Contract (Ohlone CCD) . Newark Unified School District was selected to serve as the employer of record for career technical education funding that supports the establishment of Strong Workforce Program K12 Pathway Coordinators from the California Community Colleges Chancellor's Office, Workforce and Economic Development Division. The total allocated for this position is for a sum to not exceed \$138,528.00 for the 2024-2025 school year. It is anticipated that this will be a contract position and may work remote.

Background:
This contract allows NUSD to serve as the employer of record for the K12 Pathway Coordinator (PC) position for the Ohlone Community College District, funded through the K12 Strong Workforce Program (SWP). The SWP legislation created the K12 PC positions to support connections between the K12 LEAs and local community colleges to strengthen CTE programs and pathways that align with regional workforce needs. More specifically, the K12 PCs are assigned to each community college district's service area, to work with the community colleges and the K12 LEAs to provide technical assistance to strengthen and expand CTE programs and be the go-to resource for K12 SWP and Career Technical Education Incentive Grants. The Bay Region has 18 K12 PCs on board, and the LEA host for the Ohlone Community College District's K12 PC has been Alameda County COE for years 1 and 2 of this position. Due to structural changes at the COE, the position will no longer be hosted through them. The Bay Area Community College Consortium (BACCC) and Ohlone College have partnered with NUSD to be the new LEA host for this K12 PC position. This PC position will serve MVROP, Fremont, Newark, and New Haven, in providing technical assistance to implement and improve career technical education courses, programs, and pathways. This partnership is an opportunity to further Educational Services' work on improving college and career readiness data in our secondary schools.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting. When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge. Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff. The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas. Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

12.5 Districtwide Flooring Projects All County Flooring CMAS Contract

Type Action
Fiscal Impact Yes
Dollar Amount \$400,000.00
Budgeted Yes
Budget Source Deferred Maintenance
Recommended Action The recommendation is that the Board of Education approve utilization of All County Flooring's California Multiple Awards Schedule Contract #4-20-00-0134A for the purchase and installation of flooring throughout the District through June 30, 2025.

Purpose:
 The purpose is to have the Board approve the utilization of All County Flooring's California Multiple Awards Schedule (CMAS) Contract #4-20-00-0134A for the purchase and installation of flooring throughout the District through June 30, 2025.

Background:
 Public Contract Code Section 12100 allows the District to utilize existing contracts through the State of California without

formally bidding. All County Flooring currently has a CMAS contract with the State of California that can be utilized for the purchase and installation of flooring. In September 2022, SB 1422 was signed into law and added Section 10298.5 to Public Contract code which allows District's to use CMAS contracts for the installation, or for the purchase and installation, of carpet and resilient flooring.

The District has identified three (3) immediate flooring projects:

- Birch Grove Intermediate School Portable 26, 27 & 28 = \$55,250.00
- Birch Grove Primary School Multipurpose Room = \$76,490.00
- Kennedy Elementary School Room 14, 17, 19, & ALT 20 = \$62,825.00

There are several other sites with flooring that needs to be replaced during the 2024/25 fiscal year. Any additional future projects will be based on facilities needs of the whole district. However, this gives flexibility to the District to do other flooring projects that are the top priority without having to get additional approval. The estimated total through June 30, 2025, is \$400,000.00 if all projects were completed. The initial priority are the three projects listed above and those are the only ones moving forward at this time. The Board will be updated if additional flooring projects move forward. By approving the utilization of the CMAS contract, the District will have the ability to move forward with all flooring needs through June 30, 2025.

12.6 Proposition 28--Arts and Music in Schools Funding Report

Type Action, Information

Recommended Action The recommendation is that the Board approve the annual Proposition 28 report.

Purpose:

The California Department of Education (CDE) requires the board to approve the Proposition 28 report annually.

Background:

The California Department of Education (CDE) requires a board approved report annually. Background Arts and Music in Schools (AMS/Prop 28) is a constitutional amendment allocating an amount from the California General Fund equal to 1% of Prop 98 annually for Visual and Performing Arts in schools. The law includes several requirements including, funds are allocated to schools, directed by school communities, must supplement existing VAPA programs and not supplant existing programs. Additionally, 80% must be spent on classified or certificated personnel, 19% can be spent on materials, equipment, partnerships, or professional development and no more than 1% may be spent on oversight. The funds roll over for 3 years.

The California Department of Education disbursed AMS funding in February of 2024 for the 2023-24 School Year. Additionally, the CDE began providing the guidance necessary for implementation on March 14, 2024. Given this delay and the change in district leadership in NUSD no funds were spent during the 2023 - 2024 school year as indicated on the AMS annual report. Funds from 2023 - 2024 will be rolled over to 2024 - 2025. The district received \$706,106 in 2023-24 and 2024-25 projection is \$681,558.

In 2024 - 2025 Newark Unified will actively roll out AMS funding to support arts instruction in our schools. Funding can be used for Arts education program includes (but is not limited to) instruction and training, supplies, materials, and arts educational partnership programs for instruction in dance, media arts, music, theatre, and visual arts including folk art, painting, sculpture, photography, craft arts, creative expression including graphic art and design, computer coding, animation, music composition, ensembles, script writing, costume design, film, and video.

The Southern Alameda County Adult Education Consortium membership comprises Ohlone College, Fremont Adult and Continuing Education, New Haven USD, and Newark USD. The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Background:

The Consolidated Application and Reporting System (CARS) -- formerly known as Consolidated Application or "CON APP" for short -- is the state's mechanism for both funding of identified state and federal categorical programs and required reporting for many of them. It provides the entitlement amounts of these programs as well as required considerations for expenditures. The California Department of Education requires the local educational agency (LEA) to review and receive approval of their Application for Funding selections with their local governing Board. Each year, the programs included in the CARS change based on federal/state mandates and different methods of gaining or disseminating information. This is the 2024-25 Spring Release Certification. CARS brings funds into the school district for a variety of programs including Title I, Title II, Title III and Title IV. Each of the identified programs has specified guidelines or requirements for their expenditure. All titled programs are federally funded. Title I, Part A dollars are used to support the increased achievement of at-risk students, primarily in reading and math. (We currently have eight schools receiving these funds.) Title II, Part A (Teacher Quality) monies are used to support teacher evaluation, as well as teacher professional development. Title III English Learner and Immigrant are used to support our English language learners. Title IV is used to fund school improvement programs for student academic success.

8 STAFF REPORT

8.1 Presentation on the 2024-25 California Dashboard Local Indicators

Type Information
Goals 1a. Student Achievement

Purpose:

The administration presents California Dashboard Local Indicators for Newark Unified School District.

Background:

Each year the California Department of Education prepares and releases the California Accountability Dashboard, consisting of state and local indicators of status and growth for California schools and Districts. The State Board of Education (SBE) has approved standards for the local indicators that support school districts in measuring and reporting their progress within the appropriate priority area. For each local indicator, the performance standards are as follows:

- Annually measure its progress in meeting the requirements of the specific LCFF priority
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator

Five indicators based on information collected by school districts, county offices of education and charter schools regarding LCFF priorities:

- Priority 1: Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials and Safe, Clean and Functional School Facilities
- Priority 2: Implementation of State Academic Standards
- Priority 3: Parent Engagement

- Priority 6: School Climate
- Priority 7: Access to a Broad Course of Study

The collection and reflection on locally available information relevant to progress regarding local priority areas will support districts in completing the self-reflection tools, reporting in the Dashboard, and in local planning and improvement efforts.

9.2 2024-25 Budget Adoption - Resolution 2023.24.48

Type	Action
Recommended	The recommendation is that the Board of Education adopt the 2024-25 Budget, Resolution
Action	2023.24.48, and the Public Hearing Reserve Disclosure Certificate, and certify that the budget was developed using the State-adopted Criteria and Standards.
Goals	4. Fiscal Health

Purpose:

The purpose of this item is for the Board of Education to adopt the 2024-25 Proposed Budget prior to July 1, 2024.

Background:

Following a mandated public hearing, held June 18, 2024, on the 2024-25 Proposed Budget, the Board will consider adopting the District budget. The most significant items that will impact this budget are the final enacted State budget, the actual closing of the books for the 2023-24 fiscal year, and the actual 2024-25 enrollment and attendance in the Newark Unified School District.

Education Code 42127 requires the governing board of each school district to adopt a budget on or before July 1 of each year for the upcoming fiscal year. Staff recommends the Board adopt the 2024-25 budgets for the following funds: General Fund; Adult Education Fund; Child Development Fund; Cafeteria Fund; Special Reserve for Other Than Capital Outlay Fund; Building Fund; Capital Facilities Fund; Special Reserve Fund for Capital Outlay Projects; Bond Interest and Redemption Fund; and Self-Insurance Fund.

Once the Legislature reaches a compromise on the 202425 State Budget Act, each house will need to approve the budget bill by June 15. The Governor will then have 12 days to sign the budget bill as presented, approve the budget bill with line-item reductions, or veto the budget bill and send it back to the Legislature. The District will have 45 days from the date the Governor signs the budget to make public any significant revisions it decides to make to the Adopted Budget based upon the State's enacted budget.

Background:
 This is a two year contract to ensure a freeze on the cost rate and provide consistency to our students. Opting for ESS over a Non-Public Agency (NPA) brings significant cost savings. The estimated savings are \$75,000 for the first year, totaling \$150,000 over the proposed two-year contract. These savings allow us to allocate resources more efficiently while maintaining the quality of our special education program.
 Additionally, by contracting with ESS, we can proactively address the needs of students who might otherwise require Non-Public School (NPS) or residential placements in the future. Having a qualified special education counselors on staff ensures that we can provide the necessary interventions and support early on, potentially reducing the need for more intensive and costly services down the line.
 This proactive approach not only benefits our budget but also enhances our ability to meet the diverse needs of our students, fostering a supportive and inclusive educational environment meeting the boards goals.

Background:
As a result of engagement with numerous educational partners, LCAP PAC and District identified mental health and wellness as a priority for continued support in our LCAP for the 22/23-23/24 school years. The Community identified the following in their feedback:

1. Ensure that ALL students in need have access to mental health services (vacancies, health insurance barriers, etc.) and increase the frequency of support from academic counselors.
2. Continue to fund (increase and/or address vacancy issues that we experienced this year) in order to provide mental health services for ALL.
3. Increase frequency of counselor-student conferences.

The following contract provides details about the contracts for Wellness Together for the 2024-25 school year.

Board Policy 6141.2 - Recognition of Religious Beliefs and Customs

Policy updated to reflect NEW GUIDANCE from the U.S. Department of Education regarding constitutionally protected prayer and religious expression in public schools and Appendix F of the California Department of Education's History and Social Science Framework which offers guidance and support for educators regarding the recognition of religious beliefs and customs. Additionally, policy updated to add that instruction regarding the role of religion in society be consistent with adopted instructional materials and state standards. In addition, policy updated to reflect U.S. Supreme Court decision (Kennedy v. Bremerton) which held that the employee, a football coach, did not coerce students to pray when the employee knelt at midfield after games to offer a quiet personal prayer, rejected the district's argument that any visible religious conduct by a teacher or coach amounted to impermissible coercion on students, and concluded that the coach was acting in a private capacity and not in the capacity of an employee of the district when the prayer was offered during a time when school

employees were free to attend to personal matters. Policy also updated to reflect NEW COURT DECISION (Fellowship of Christian Athletes v. San Jose Unified School District) in which the Ninth Circuit U.S. Court of Appeals held that it would be discrimination for a district to fail to recognize a student club with religiously based leadership requirements upon a finding that multiple student clubs imposed certain requirements for membership or leadership positions--i.e., discriminated against certain students--but that the district only objected to the Fellowship of Christian Athletes' requirements because of the religious basis of the requirements.

Authority is

Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

12.1 Programs and Contracts Funded by ESSER

Type Information

Purpose:

Staff will provide a snapshot update on the programs and contracts funded by ESSER III.

Background:

School districts, county offices of education, or charter schools, collectively known as LEAs, that receive Elementary and Secondary School Emergency Relief (ESSER) funds under the American Rescue Plan Act, referred to as ESSER III funds, were required to develop a plan for how they will use their ESSER III funds. In the plan, an LEA explains how it intends to use its ESSER III funds to address students' academic, social, emotional, and mental health needs, as well as any opportunity gaps that existed before, and were worsened by, the COVID-19 pandemic. An LEA may also use its ESSER III funds in other ways, as detailed in the Fiscal Requirements section of the instructions. Future ESSER programs have not been funded and the district is required to expend all remaining ESSER III funds by September 30, 2024. Many of the services that were funded by the ESSER III are still necessary, and the district has found alternative funding and partnerships to support essential services for students to ensure their academic, social, emotional, and mental health needs are addressed. The ESSER III Expenditure Plan was approved by the Board at the October 21, 2021 meeting.

14.4 Updated & Corrected School Meal Prices 2024-2025

Type	Action
Recommended	The recommendation is that the Board of Education approve the updated fees for all second
Action	school meals, effective for the 2024-2025 school year, as presented.
Goals	4. Fiscal Health

Purpose: To increase all second meal prices in order to be in compliance with the 2024-2025 USDA Nonprogram Foods Tool. At this time, NUSD Child Nutrition is not meeting the required second meal price of \$3.94 for Breakfast, and \$5.54 for Lunch

Background: 2024-2025 Meal Price increases were approved by the Board on May 7, 2024. At that time, the Child Nutrition Services Department was utilizing the USDA Paid Lunch Equity Tool. Due to recent information provided by the California Department of Education, this is the incorrect way of determining the nonprogram food cost requirements. The U.S. Department of Agriculture (USDA) Food and Nutrition Services (FNS) Instruction 782-5, rev. 1, states that breakfasts and lunches served to adults must be priced so that the adult payment is sufficient to cover the overall cost of the lunch. This includes the value of any USDA Foods used to prepare the meal. School food authorities (SFA) must ensure that federal reimbursements, children's payments, and other non designated nonprofit food service revenues do not subsidize meals served to adults.

Although this law specifically mentions adult meals, it is a requirement that all non-reimbursable meals meet these minimum income requirements. As a result, we are requesting that all second meals for students, be priced to allow for the entire income to be collected at the time of service. The new, and corrected, increase for second meal prices will now collect the minimum requirement per the USDA tool. All second meals for students (Elementary, Middle and High School) will be the same cost.

- Second Breakfast Prices will now be \$4.00
- Second Lunch Prices will now be \$5.75

Increasing second breakfast and second lunch prices will increase revenues in the National School Lunch Program and that will ensure more monies to the nonprofit school food service account and allow them to avoid impinging on the general fund. This increase will also follow the USDA requirement that all non-program meals are cost effective and meet the minimum income requirements.

Students will continue to receive free meals based on the current California Department of Education guidance which allows for free meals to all students no matter their status. We are requesting to increase the prices for all second breakfast and second lunches in order to remain in compliance with the USDA guidance from the Paid Lunch Equity tool.

Goals	4. Fiscal Health

Purpose: The purpose of this item is for the Board to approve Resolution 2023.24.40 Regarding the Education Protection Account to fulfill the requirements of Propositions 30 and 55, which created and extended the Education Protection Account.

The language in the constitutional amendment requires that funds shall not be used for the salaries and benefits of administrators or any other administrative costs.

14.9 Approval of Single Plan for Student Achievement (SPSA), Part 1

Type	Action (Consent), Information
Fiscal Impact	Yes
Budget Source	LCFF, Title 1, and LRE
Recommended	The recommendation is that the Board approve the Single Plans for Student Achievement
Action	(SPSAs) for 2024-25 as presented.
Goals	2a. Safe, Secure and Healthy Learning Environments

1a. Student Achievement

Purpose:

Purpose: We seek the Board of Education's approval of the Single Plan for Student Achievement for the following schools; Birch Grove Intermediate, Coyote Hills Elementary, Lincoln Elementary, Schilling Elementary, Newark Middle School, Bridgepoint Continuation High School, Crossroads Independent Study School, and Newark Memorial High School. The remaining schools will be presented at the June 25th Board of Education Meeting. The dollar amount presented represents the total SPSAs dollar allocations across all NUSD school sites (part I and part II).

Background:

The School Plan for Student Achievement (SPSA) is a plan of action to improve student academic performance by coordinating all educational services and resources. Pursuant to California Education Code Section 64001, schools that receive state and federal funds are required to consolidate all school plans into a SPSA. SPSA specifics are also included in the Federal Program Monitoring process. The SPSA is used to meet planning requirements for Title I School wide Programs (SWP), Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI).

California Education Code (EC) Section 64001 requires that a School Site Council (SSC) develop the SPSA.

It is the goal of Newark Unified School District (NUSD) to provide equitable opportunities to each of our students and school sites. Each site-specific SPSA and the district-wide Local Control and Accountability Plan (LCAP) is a roadmap created in partnership with all district stakeholders to achieve our vision and mission.

The SPSAs are informed by data. Each goal area includes data analysis on current measures across student subgroups and on outcome measures to determine progress. Local and State data are used to develop each goal and research is used to identify best practices to address student needs. Progress is evaluated through the School Site Councils (SSCs). The SSCs meet to review SPSA goals, actions, and budgets. California Dashboard data and other local data is used to measure the impact of actions on student achievement. The principal and staff evaluate academic progress at minimum three times a year through an academic Professional Learning Community (PLC) model with benchmark data. Educational Partners are key in the development of the SPSAs. California Education Code Section 64001 requires that the School Site Council (SSC) develop the SPSA. The SSC's responsibilities include approving the plan, recommending it to the local governing board for approval, monitoring its implementation, and evaluating the effectiveness of the plan at least annually. The SSC must seek the review, advice, and certification of applicable advisory committees, including the English Learner Advisory Committee (ELAC).

14.10 University of Massachusetts Global Clinical Practice Agreement for Student Teachers and Interns

Type	Action
Recommended	The recommendation is that the Board of Education approve the University of Massachusetts
Action	Global Clinical Practice Agreement for student teachers and interns.

Purpose: The purpose of this item is for the Board of Education to approve the University of Massachusetts Global Clinical Practice Agreement for student teachers and interns.

Background: The District works closely with local institutes of higher education (IHE) and supports student teacher placements and interns. Agreements between Newark Unified School District and a university must be in place before a student teacher or intern can be placed at a school site in the District. Student teachers and interns in training do fieldwork in our schools and are supervised by the administrators who provide supervision and training. Student teachers and interns are able to learn, practice teaching, and fine-tune their craft under the direct supervision of a master teacher. The opportunity to student teach or intern in the District benefits both the student teacher and the District. As vacancies become available in the district, it is invaluable to have the opportunity to observe directly student teachers and interns who may be eligible to interview for vacancies and observe how well they fit into the culture of Newark.

Recommended Action	The recommendation is that the Board approve the Think Together contract in support of our approved ELO-P plan, adopted February 3, 2022 and in alignment with the guidelines in AB 130 for 2024-25.
Goals	3b. Parent and Community Engagement and Communication 2a. Safe, Secure and Healthy Learning Environments

Purpose:

We are seeking the approval of the Think Together contract in order to execute the ELO-P plan. The District is dedicated to carrying out the Board-approved plan for providing an extended day to our TK-6, unduplicated students as outlined in the Expanding Learning Opportunities Program (ELO-P) plan that was presented and approved by the Board on February 3, 2022. These funds will assist in providing additional academic and social-emotional support to students through a 9-hour extended learning day to our student populations that are historically underserved.

Background:

In July of 2021, Governor Newsome signed Assembly Bill (AB) 130, which included many budgetary and programmatic changes for this school year. One of these changes was to provide comprehensive, district-wide, after-school, and summer school enrichment programs for transitional kindergarten through sixth grade students that are English learners, foster youth, and/or unhoused. This captures our ELOP ASES Replication (BGP, BGI, Kennedy, and Lincoln) and our ELOP Core Program Expansion as well as the added PLs to Schilling & CHE to serve additional UPP students. Think Together was selected as the primary partner for this work because it supports the district's intention to create a single, comprehensive program. Think Together has been a strong partner, providing our ASES services in Newark for multiple years, and they have proven both within the District and

across the state to be an effective program, providing mentorship and care for our students. An additional contract for the subsequent school year and summer school services will be presented at a future board meeting

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Newark Unified School District and the Ohlone College administration engaged in efforts to update the MOU currently in place in order to maintain our partnership and continue to offer Newark Unified students dual enrollment moving forward. Dual enrollment has proven to be an effective strategy to help advanced high school students begin college early. Dual enrollment also allows a broader range of students, particularly students from backgrounds for which a college education is not a given, to transition from high school to college. NUSD and Ohlone are both committed to maintaining a strong partnership in alignment with Assembly Bill 288. With the new Ohlone administration in place, both dual enrollment and college connection agreements have been finalized for approval. AB 288 was voted into law in the fall of 2015, with the intent to facilitate the development and promotion of K-12 and community college dual enrollment partnerships and programs that target a broader range of high school students.

Absolute Date	May 21, 2024
Fiscal Impact	Yes
Dollar Amount	\$177,000.00
Budgeted	Yes
Budget Source	Resource 6500 - Special Education
Recommended	The recommendation is that the Board of Education approve the agreement with Pawar
Action	Transportation.

Purpose:

The purpose is to increase the contract amount for special education transportation services provided by Pawar Transportation.

Background:

At the beginning of the school year, Pawar provided a quote of \$500,000 for our special education transportation for the 2023-24 school year. However, as we approach the final three months of the academic year, it has become evident that this initial allocation is insufficient to meet the end of year transportation services. This adjustment is essential to meet the educational and safety requirements of our students as we conclude the school year. In the 23-24 school year, Newark Unified decided to solely contract with Pawar and created a contract for \$500,000. The current need for the remainder of the year is \$177,000. This is still a reduction of cost for transportation by \$135,999 from the 22-23 school year.

The following derives directly from the Board approved "Governance Team Handbook"
 Authority is Collective, Not Individual:
 The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.
 A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward
 The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.
 Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.
 When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.
 Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.
 The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.
 Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

14.6 Updated School Meal Prices 2024-2025

Type Action

Recommended Action The recommendation is that the Board of Education approve the updated fees for all second school meals, effective for the 2024-2025 school year, as presented.

Goals 4. Fiscal Health

Purpose:

To increase all second meal prices in order to be in compliance with the 2024-2025 USDA Paid Lunch Equity Requirement.

At this time, NUSD Child Nutrition is not meeting the required weighted average of \$3.81.

Background:

Regulation 7 CFR 210.14 (e) requires school food authorities (SFAs) participating in the National School Lunch Program to ensure sufficient funds are provided to the nonprofit school food service account for meals served to students not eligible for free or reduced-price meals. There are two ways to meet this requirement: changing the prices charged for "paid" meals, or through other non-Federal sources provided to the nonprofit school food service account.

The prices for our Breakfast Program have not been increased in several years. Due to the change in regulations, under the Healthy Hungry Free Kids Act of 2010, students are now required to take a minimum of one-half cup of fruit with each meal. They are also required to have foods that are made with 51% or more whole-grain. Fruit increases in price regularly, and there are limited options available. We also have to follow other requirements, including required vegetable requirements, and this has resulted in larger amounts of money being spent on the foods for our students to have healthy meals.

Elementary School Second Breakfast Prices will increase from \$2.50 to \$2.75 (\$0.25 increase)

Elementary School Second Lunch Prices will increase from \$3.50 to \$3.75 (\$0.25 increase)

Newark Middle School Second Breakfast Prices will increase from \$2.75 to \$3.00 (\$0.25 increase)

Newark Middle School Second Lunch Prices will increase from \$3.75 to \$4.00 (\$0.25 increase)

Newark Memorial High School Second Breakfast Prices will increase from \$2.75 to \$3.00 (\$0.25 increase)

Newark Memorial High School Second Lunch Prices will increase from \$4.00 to \$4.25 (\$0.25 increase)

Increasing second breakfast and second lunch prices will increase revenues in the National School Lunch Program and that will ensure more monies to the nonprofit school food service account and allow them to avoid impinging on the general fund.

Although students will continue to receive free meals based on the current California Department of Education guidance which allows for free meals to all students no matter their status. We are requesting to increase the prices for all second breakfast and second lunches in order to remain in compliance with the USDA guidance from the Paid Lunch Equity tool.

Motion & Voting

The recommendation is that the Board of Education approve the updated fees for all second school meals, effective for the 2024-2025 school year, as presented.

Motion by Phuong Nguyen, second by Katherine Jones.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff.

The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

11 PUBLIC HEARINGS

11.1 Public Hearing on Developer Fees Increase

Type Procedural
Goals 4. Fiscal Health

Purpose:

To conduct a public hearing on approval of the Developer Fee Justification Study dated March 2024, and Resolution 2023.24.31 to increase school developer fees on new residential and commercial/industrial construction.

Background:

Government Code section 65995 provides that the maximum fees which may be levied on development projects shall be increased in 2000 and every two years thereafter according to the adjustment for inflation set forth in the statewide cost index for Class B construction as determined by the State Allocation Board (SAB). The SAB at its January 24, 2024 meeting, set the maximum fee to \$5.17 per square foot for residential development; to \$0.84 per square foot for commercial/industrial development; and to \$0.06 per square foot for self storage. The new fees for residential and commercial developments are an increase of what is currently being collected by the Newark Unified School District.

The Developer Fee Justification Study provides justification for the Newark Unified School District to levy Level 1 developer fees on new residential, commercial, and industrial construction not under mitigation agreement with the District. Level 1 fees are the current statutory fees allowed under Education Code 17620. This code section provides the basic authority for school districts to levy a fee against residential and commercial construction for the purpose of funding school construction or reconstruction of facilities. These developer fees are subject to a biennial inflationary adjustment in an amount equal to the change in the statewide cost index for Class B construction.

Notice of this public hearing ran in the East Bay Times (Argus) on March 29, 2024, and April 5, 2024.

A fee of \$4.79 per square foot for residential construction and a fee of \$0.78 per square foot for commercial/industrial construction is currently assessed on applicable permits pulled in the District. The study provides the justification for the District to levy the maximum developer fee. 13.4 Resolution 2023.24.31 Developer Fees Increase

Type	Action
Fiscal Impact	Yes
Budget Source	Capital Facilities Fund (Fund 25) - Fiscal impact dependent on sizes of structures built
Recommended	The recommendation is that the Board of Education adopt Resolution 2023.24.xx approving
Action	an increase to developer fees on new residential and commercial/industrial construction.
Goals	4. Fiscal Health

Purpose:

To adopt Resolution 2023.24.31 approving an increase to developer fees on new residential and commercial/industrial construction.

Background:

A public hearing about increasing developer fees was held earlier in this Board meeting. Government Code section 65995 provides that the maximum fees which may be levied on development projects shall be increased in 2000 and every two years thereafter according to the adjustment for inflation set forth in the statewide cost

index for Class B construction as determined by the State Allocation Board (SAB). The SAB at its January 24, 2024 meeting, set the maximum fee to \$5.17 per square foot for residential development; to \$0.84 per square foot for commercial/industrial development; and to \$0.06 per square foot for self storage. The new fees for residential and commercial developments are an increase of what is currently being collected by the Newark Unified School District. The Developer Fee Justification Study provides justification for the Newark Unified School District to levy Level 1 developer fees on new residential, commercial, and industrial construction not under mitigation agreement with the District. Level 1 fees are the current statutory fees allowed under Education Code 17620. This code section provides the basic authority for school districts to levy a fee against residential and commercial construction for the purpose of funding school construction or reconstruction of facilities. These developer fees are subject to a biennial inflationary adjustment in an amount equal to the change in the statewide cost index for Class B construction.

Notice of this public hearing ran in the East Bay Times (Argus) on March 29, 2024 and April 5, 2024.

A fee of \$4.79 per square foot for residential construction and a fee of \$0.78 per square foot for commercial/industrial construction is currently assessed on applicable permits pulled in the District. The study provides the justification for the District to levy the maximum developer fee. The new fee amounts are \$5.17 per square foot for residential construction, \$0.84 per square foot for commercial/industrial construction and \$0.06 per square foot for public storage. This proposed increase represents \$0.38 per square foot and \$0.06 per square foot for residential and commercial/industrial construction, respectively and a decrease of \$0.01 per square foot for self storage.

Commercial/Industrial	\$0.78	\$0.84	\$0.06
Self Storage	\$0.07	\$0.06	(\$0.06)

Fees will become effective June 15, 2024, 60 days after the adoption of Resolution 2023.24.31.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

14.6 Updated School Meal Prices 2024-2025

Type	Action
Recommended	The recommendation is that the Board of Education approve the updated fees for all second
Action	school meals, effective for the 2024-2025 school year, as presented.
Goals	4. Fiscal Health

Purpose:
To increase all second meal prices in order to be in compliance with the 2024-2025 USDA Paid Lunch Equity Requirement. At this time, NUSD Child Nutrition is not meeting the required weighted average of \$3.81.

Background:
Regulation 7 CFR 210.14 (e) requires school food authorities (SFAs) participating in the National School Lunch Program to ensure sufficient funds are provided to the nonprofit school food service account for meals served to students not eligible for free or reduced-price meals. There are two ways to meet this requirement: changing the prices charged for "paid" meals, or through other non-Federal sources provided to the nonprofit school food service account. The prices for our Breakfast Program have not been increased in several years. Due to the change in regulations, under the Healthy Hungry Free Kids Act of 2010, students are now required to take a minimum of one-half cup of fruit with each meal. They are also required to have foods that are made with 51% or more whole-grain. Fruit increases in price regularly, and there are limited options available. We also have to follow other requirements, including required vegetable requirements, and this has resulted in larger amounts of money being spent on the foods for our students to have healthy meals.

- Elementary School Second Breakfast Prices will increase from \$2.50 to \$2.75 (\$0.25 increase)
- Elementary School Second Lunch Prices will increase from \$3.50 to \$3.75 (\$0.25 increase)
- Newark Middle School Second Breakfast Prices will increase from \$2.75 to \$3.00 (\$0.25 increase)
- Newark Middle School Second Lunch Prices will increase from \$3.75 to \$4.00 (\$0.25 increase)
- Newark Memorial High School Second Breakfast Prices will increase from \$2.75 to \$3.00 (\$0.25 increase)
- Newark Memorial High School Second Lunch Prices will increase from \$4.00 to \$4.25 (\$0.25 increase)

Increasing second breakfast and second lunch prices will increase revenues in the National School Lunch Program and that will ensure more monies to the nonprofit school food service account and allow them to avoid impinging on the general fund. Although students will continue to receive free meals based on the current California Department of Education guidance which allows for free meals to all students no matter their status. We are requesting to increase the prices for all second breakfast and second lunches in order to remain in compliance with the USDA guidance from the Paid Lunch Equity tool.

Type	Action
Absolute Date	May 07, 2024
Recommended	Staff recommends the Board of Education approve the California State University's MOU and
Action	Agreement regarding CalStateTEACH Internship Program.

Purpose:
The purpose of this item is for the Board of Education to approve the MOU and agreement between California State University and Newark Unified School District regarding CalStateTEACH Internship Program commencing August 1, 2024 and ending July 31, 2027.

Background:
The District works closely with local institutes of higher education (IHE) and supports student teacher placements and interns. Agreements between Newark Unified School District and a university must be in place before a student teacher or intern can be placed at a school site in the District. Student teachers and interns in training do fieldwork in our schools and are supervised by the administrators who provide supervision and training. Student teachers and interns are able to learn, practice teaching, and fine-tune their craft under the direct supervision of a master teacher. The opportunity to student teach or intern in the District benefits both the student and the District. As vacancies become available in the district, it is invaluable to have the opportunity to observe directly student teachers and interns who may be eligible to interview for vacancies and observe how well they fit into the culture of Newark.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a

constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

11 NEW BUSINESS

11.1 Home-To-School Transportation Plan

Type Action

Absolute Date Mar 19, 2024

Fiscal Impact Yes

Recommended The recommendation is that the Board of Education approve the Transportation Plan for 2023-

Action 24 as presented.

Goals 4. Fiscal Health

Purpose:

To approve the Home-to-School Transportation Plan by April 1, 2024 as required by Ed Code 39800.1 and AB 181.

Background:

The 2023-24 State Budget included funds that school districts can receive to offset costs associated with providing student home-to-school transportation services (reference Ed Code 41850.1). This funding is not for additional transportation services but rather a reimbursement for costs already incurred. In order to receive the funds, the District is required to approve a Transportation Plan by April 1, 2024.

If the district does not approve a Transportation Plan, it will result in an audit finding and funds will have to be returned to the State.

The district has an opportunity to be reimbursed for \$73,445 in transportation costs through this funding source.

The fiscal impact for this item will result in a decrease to the Special Education contribution from General Fund for transportation.

Action member to the Audit Committee.

Purpose:

By taking this action, the Board will reappoint voting public (community) member, Aaron Weisz, to the Audit Committee for a second-term beginning March 19, 2024 and expiring January 31, 2026.

Background:

The Audit Committee currently has two members whose terms have expired. Their positions include the voting and non-voting community members. The request for Audit Committee membership applications was posted at the District Office and online on January 16, 2024. The application deadline was February 15, 2024. The Audit Committee reviewed (1) application for the voting member position and interviewed the applicant on February 28, 2024. The Audit Committee recommends Aaron Weisz be appointed by the Board of Education to the Audit Committee as a voting member. Mr. Weisz has been on the Audit Committee as a non-voting member since he was Board approved on June 6, 2017. He appointed to his first term as the voting member on March 18, 2022. 11.4 Board Listening Tour

Type Discussion

Purpose:

To provide our community and School Board with the ability to engage through a listening tour on school district related topics for continuous improvements and to better provide services related to student achievement, district goals, future of Newark Unified, etc.

Background:

At the last school board meeting a community member made a recommendation that the School Board consider an opportunity to engage the community through a topic called "Fireside Chats". In order to do this and not violate the Brown Act we cannot have more than two school board members together, and as a best practice you should hold off on comments until you are in a meeting where you may collectively talk together and thereby not violate the Brown Act. Therefore it is recommended that NUSD Board Members pair up and consider a Listening Tour and that the board host 2-3 sessions this spring and identify dates to invite the community and listen to their ideas for continuous improvements related to the educational services, programs, support systems, etc. At a later date ideas from the listening tour can be shared on a future agenda item or study session so that all board members can discuss the information shared by the community. Additionally, staff will provide resources where these ideas can be written down.

12 CONSENT AGENDA: PERSONNEL ITEMS

12.1 PLACEHOLDER - One Consented Vote

Recommended Action It is recommended that the Board of Education approve, under one consented vote, the agenda items under Consent-Personnel, except for agenda items:

Purpose:

This is specifically a placeholder, and will only be used if multiple agenda items are approved under a consented vote.

Background:

Items within the Consent Agenda are considered routine and will be approved, adopted, or ratified by a single motion and action. There will not be a separate discussion of these items; however, any item may be pulled from the Consent Agenda upon the request of any member of the Board and acted upon separately.

12.2 Personnel Report

13 CONSENT AGENDA: NON-PERSONNEL ITEMS

13.1 PLACEHOLDER - One Consented Vote

Type Action
Recommended Action It is recommended that the Board of Education approve, under one consented vote, the agenda items under Consent Non-Personnel, except for agenda items:

Purpose: This is specifically a placeholder, and will only be used if multiple agenda items are approved under a consented vote.

Background: Items within the Consent Agenda are considered routine and will be approved, adopted, or ratified by a single motion and action. There will not be a separate discussion of these items; however, any item may be pulled from the Consent Agenda upon the request of any member of the Board and acted upon separately.

13.2 Report: Warrant Report for February 2024

Type Action
Absolute Date Mar 19, 2024

Budgeted Yes
Budget Source General Fund
Recommended Action The recommendation is that the Board of Education approve the Warrant Report as presented.
Goals 4. Fiscal Health

Purpose: The purpose of this item is to present warrants, for the total amount of \$2,278,740.98, made from District funds for February 2024.

Background: The warrant registers represent a complete listing of all payments made from District funds for a month. Because Newark Unified School District is a fiscally dependent District, each warrant must pass through two separate audits; first by the Districts Fiscal Services department, and second by the County Office of Education. No warrant can be paid until such time as it is examined and approved by the County Office of Education.

Goals 4. Fiscal Health

Purpose: The purpose of this item is to obtain Board approval of Resolution 2023.24.29 Declaring Surplus Equipment, which lists items to be declared as surplus equipment as recommended.

Background: Surplus materials will be disposed of per Board Policy and Administrative Regulation 3270 Sale And Disposal Of Books, Equipment And Supplies. Education Code, Section 17546 states that if the Governing Board, by a unanimous vote of those members present, finds that the property, whether one or more items, does not exceed the value of \$2,500, it may be sold at private sale without advertising, by a District employee empowered for that purpose by the Board; the property may be donated to a charitable organization, or it may be disposed of in a public disposal facility. 13.4 Updated Alameda County Office of Education Triennial Plan for Serving Expelled and High-Risk Students

Type Action
Absolute Date Mar 19, 2024
Fiscal Impact No
Recommended Action The administration recommends the approval of the updated Alameda County Office of Education (ACOE) Triennial Plan.
Goals 2a. Safe, Secure and Healthy Learning Environments
1a. Student Achievement
MISSION: The Newark Unified School District will inspire and educate all students to achieve their full potential and be responsible, respectful, and productive citizens.

Purpose:

The County-Wide Educational Services Plan for Serving Expelled and High-Risk Students (the Triennial Plan), July 1, 2024 - June 30, 2027, fulfills the Education Code mandate. All districts of Alameda County enter into this agreement every three years.

Financial Impact Note:

The financial impact to the District comes in the loss of daily attendance apportionment when an expelled student is placed at a county community school after expulsion. Additionally, if the expelled student has an IEP, the District may be charged (in future school years) for additional special education services for that student. ACOE has indicated that they are flexible and willing to be creative in serving students with IEPs, and if the District chooses to continue special education services under the IEP instead of having ACOE provide the services, there will be no charge. However, the feasibility of such an arrangement must be considered on a case-by-case basis and agreed to in the usual IEP process.

County Wide Plan Overview

Educational programs within Alameda County provide numerous alternatives and opportunities for students who are in need of traditional and/or alternative education programs. Individual school districts offer a broad spectrum of services and the County Office of Education (COE) offers additional options. In combination, these two sources provide a continuum of education alternatives to expelled and high-risk students.

Under Education Code Section 48926, school districts throughout California have been mandated to provide educational services for students expelled from their district. The original county-wide plan was adopted by the local governing boards of education and the Alameda County Board of Education in 1997.

This current county-wide plan is the triennial update to the existing plan. The law also states that "At the time an expulsion of a pupil is ordered, the governing board of the school district shall ensure that an education program is provided to the pupil who is subject to the expulsion order for the period of the expulsion."

In Alameda County, this mandate impacts 18 school districts spread over a region comprised of urban, suburban, and semi-rural or isolated communities. The educational placement of a student is determined on an individual basis by the district's governing board based on 1) seriousness of the offense, 2) available educational alternatives, and 3) other related factors.

The county-wide plan for the provision of educational services to expelled students for the period 2024-2027 shall identify:

1. Existing educational alternatives for expelled students, as well as strategies for improvement during the next three years in behavioral intervention practices utilized at the site and district levels.
2. Gaps in educational services to expelled students, strategies implemented to fill those service gaps, the success of these strategies, and additional measures taken.
3. Alternative placement for students who are expelled and placed in district community day school programs (for applicable districts), but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils, as determined by the governing board.
4. Existing alternatives offered by school districts in the countywide plan.

Key Questions/Answers

1. Is this plan substantially the same as prior Triennial Plans?

Yes. Newark's offerings have not changed from the prior 2021-2024 Triennial Plan. (Other districts detailed in the Triennial Plan may have changed.) The ACOE community school offerings are substantially the same as well.

2. What changes are in the plan?

No Changes.

3. Is there a charge from ACOE to educate general education students?

No. With the enactment of AB 922, Statutes of 1995, Chapter 974, California Education Code Section 48926 requires each county superintendent who operates community schools, in conjunction with the superintendents of the school districts within the county, to develop a county-wide plan for providing education services for all expelled pupils in the county. The plan is to be adopted by the governing board of each school district within the county and by the county board of education; the plan is to be submitted to the State Superintendent of Public Instruction.

Education Code Section 48926 provides specifically that:

EC Section 48926 further requires that each county superintendent of schools, in conjunction with district superintendents in the county, submit a triennial update to the State Superintendent of Public Instruction the next date being June 30, 2024 (effective July 1, 2024, to June 30, 2027).

1. The county-wide plan shall enumerate existing educational alternatives for expelled pupils, identify gaps in educational services to expelled pupils, and strategies for filling those service gaps.
2. The county-wide plan shall identify alternative placements for pupils who are expelled and placed in district community day school programs but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils, as determined by the district governing board.

Bylaw reflects NEW LAW (AB 992, 2020) which authorizes board members to engage in separate conversations or communications on social media platforms that are open and accessible to the public as long as a majority of the board does not use the platform to discuss among themselves business within the subject matter jurisdiction of the board, board members do not respond directly to any communication from other board members, and board members do not comment on or use digital icons to express reactions to communications made by other board members. Bylaw also references court decisions which clarify that a public official's social media account which includes discussion of public business may be considered a public forum. This policy was updated by CSBA in December, 2020. Newark has not yet adopted this policy.

14 BOARD OF EDUCATION: COMMITTEE REPORTS, ANNOUNCEMENTS, REQUESTS, DEBRIEF

14.1 Board of Education Committee Reports, Announcements, Requests, Debrief and Discussion

AND DISCUSSION

Type Action, Discussion, Information

Purpose:

COMMITTEE REPORTS: The Trustees will provide an update, if available, on the committees of which they are members. ANNOUNCEMENTS: The Trustees may acknowledge or recognize specific programs, activities, or personnel at this time. REQUESTS: This is an opportunity for the Board of Education to suggest items for placement on future agendas and to review Board requests.

Approval from the majority of the Board will be required for direction to be provided to the Superintendent.

DEBRIEF AND DISCUSSION: The Trustees may debrief and discuss items.

Background:

Each year the Board of Education members liaise with schools and committees in order to build relationships, hear from staff, students, and families, and act as a conduit for information to and from the schools.

Board Committees 2022-23

Table with 3 columns: Board Adopted on 12/15/2022, Representative, Alternate. Rows include Mission Valley Regional Occupational Center/Program (ROC/P), Executive Board, Regional Policy Board of Special Education Local Plan Area (SELPA), Newark Teacher Induction Advisory Council (Formally EBIC), Audit Committee, Bond/Parcel Tax Committee, and City of Newark NUSD Liaison Committee.

The following derives directly from the Board approved "Governance Team Handbook" Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Deputy Superintendent of Business Services/CBO, Tracey Vackar will present Budget Reduction Plan Goal for the 2024-25 school year to the Board of Education.

Background:

At the March 5, 2024 meeting Mike Berg, Strategic Solutions Today, presented a Budget Reduction Plan and timelines.

The first step of a Budget Reduction Plan begins with the reduction of force to align to the reduction in revenue/enrollment. This is the first critical step, since approximately 80% of the district's budget goes toward employee salaries. The report will also review strategies in operating costs and proposed initiatives to generate revenue. During the March 5, 2024 meeting, the Second Interim was presented and approved by the Board of Education. This plan outlines savings identified in the 2024-2024 Multi Year Projection (MYP).

Goals 4. Fiscal Health
3a. Parent and Community Engagement and Communication
2a. Safe, Secure and Healthy Learning Environments

Purpose:

To provide the Board of Education with an outline of services to be done in preparation for the NUSD Board to consider a 2024 local school bond measure. Background:

In November 2011, the voters of Newark approved the \$63 million Measure G general obligation bond initiative to upgrade and repair neighborhood schools. The funding provided by this bond will be spent by December 31, 2024. At the February 6, 2024 Board meeting the community and Board members expressed interest in pursuing a Bond in the November 2024 election. Currently, additional funds are needed to make basic repairs and upgrades to local school classrooms, science labs, improve classroom technology and infrastructure, campus security, and fire/earthquake safety systems; repair and replace outdated portable classrooms; and replace inefficient heating, cooling, electrical and plumbing systems with updated, sustainable solar systems.

The Second Interim Budget Report compares the General Fund and other funds' anticipated revenues and expenditures with the current operating budget for the 2023-24 fiscal year, along with actual receipts and expenditures as of January 31, 2024. At each interim reporting period, the District must certify whether the District will be able to meet its financial obligations for the current and subsequent two years.

The current year budget is used as the base year and multi-year projections are made based on a number of factors and assumptions for the coming two years. The primary drivers of the budget are the State's fiscal health and District student enrollment and attendance.

The multi-year projection indicates the District can issue a positive certification as the District will be able to meet its obligations for the current fiscal year and two subsequent fiscal years. The district is deficit spending due to changes in enrollment and as one time funds for ESSER/COVID funding has been depleted.

District and site staff are committed and will continue to develop strategies to implement budget reductions and cost saving strategies that will support the 2024-2025 budget in order to maintain positive certifications.

The following derives directly from the Board approved "Governance Team Handbook"
Authority is Collective, Not Individual:
The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.
A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward
The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.
Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.
When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.
Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.
The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.
Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

10 STAFF REPORT

10.1 Budget Taskforce Report

Type Reports

Purpose:

To provide the Board with an update on recommendations from the NUSD Budget Taskforce for input into the 2024-25 Budget Development.

Background:

Newark Unified School District has a significant structural (ongoing) budget deficit, noted at over \$14,000,000. NUSD

submitted a "qualified" First Interim budget/multi-year projection, indicating that the district will not make the statutory minimum 3% reserve by Year 3 of the multi-year projection (MYP). In order to balance the budget and ensure the district meets its financial obligations, the district must make significant budget reductions.

The Superintendent began informing the public of district's financial distress in early summer and subsequently convened a District Budget Taskforce, led by business consultant, Mike Berg, at the beginning of the school year. We offer our deepest appreciation to the NUSD Budget Taskforce members who met this fall/winter in September, October and January to study the district budget and give thoughtful feedback into areas of potential reduction.

Per Education Code Section 32281, the School Site Council (SSC) develops and approves a comprehensive school safety plan relevant to the needs and resources of that particular school, or may delegate this responsibility to a school safety planning committee. Each school must review and update its plan by March 1 every year for submission to the California Department of Education (CDE).

rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority. A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.
The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Budgeted	Yes
Budget Source	Committed funds for Facilities will be transferred.
Recommended	The recommendation is that the Board of Education approve the contract for TICO
Action	Construction to repair the cafeteria wall at Birch Grove Primary.
Goals	2a. Safe, Secure and Healthy Learning Environments 2b. Safe, Secure and Healthy Learning Environments 4. Fiscal Health

Purpose:
 To approve the contract to repair the cafeteria wall at Birch Grove Primary to the lowest, responsible and responsive contractor, TICO Construction.

Background:
 The exterior walls of the cafeteria buildings on three school properties, Birch Grove Primary, Coyote Hills and Schilling, have experienced water intrusion issues through the exterior walls during rainstorms over various periods of time. In November 2022 the water damage was reported to our insurance company, Keenan. Our claim was referred to Northern California ReLiEF and was denied on June 12, 2023.
 All three sites are in need of repair, however, Birch Grove Primary is the priority:
 The age of the building is unknown, although it is believed to be at least approximately sixty years old; the exterior cladding has been the same for at least 35 years.
 Water has been leaking through the south and east exterior walls for many years and pooling on the floor at the base of the walls; the leakage was relatively minor previously but worsened noticeably this past year.
 Maintenance personnel attempted to install caulking along the control joints of the walls in some locations, but the leakage persisted.
 At a building on a different campus with similar construction, they had a similar issue and reinstalled the cladding as a result, approximately seven years ago; it is not known exactly which building this was.

The Director of Maintenance, Operations and Transportation collected three proposals to do the repairs. It is staff's recommendation to approve the contract for TICO Construction to do the repairs.

Date	Contractor	Contract Amount
11/15/2023	TICO Construction	\$89,828

9.1 2023-24 First Interim Budget Report

Type	Action
Recommended	The recommendation is that the Board of Education approves the 2022-23 First Interim
Action	Report with Qualified Certification.
Goals	4. Fiscal Health

Purpose:

The purpose of the Interim Report is to advise the Board of Education, administrators, the public and other interested agencies of the District's financial condition at periodic intervals during the fiscal year.

Background:

At each interim reporting period, the District must make a certification as to its fiscal health for the current and upcoming two years. A POSITIVE certification indicates that the District WILL be able to meet its financial obligations for the current and upcoming two years. A QUALIFIED certification indicates the District MAY NOT be able to meet its financial obligations for the current and upcoming two years. A NEGATIVE certification indicates the District WILL NOT be able to meet its financial obligations in the current or upcoming two years. The First Interim Budget Report is a "snapshot" in time of the District's revenue and expenditure forecasts for the current fiscal year as well as a projection of the two subsequent fiscal years. It is a good time to adjust the budget based upon any known changes. The First Interim Budget Report covers the period of time from July 1 through October 31 each fiscal year. AB 1200 requires all California school districts to submit two interim reports to their County Office of Education. This year, the First Interim Report is due to the Alameda County Office of Education (ACOE) by December 15, 2023.

9.3 Contract with TNTP, Inc. - Updated Empathic Instruction Proposal

Type	Action
Fiscal Impact	Yes
Dollar Amount	\$124,000.00
Budgeted	Yes
Budget Source	Antibias Grant
Recommended Action	The recommendation is that the Board of Education approve the updated Empathic Instruction contract.

Purpose:
For the Board to approve the TNTP Inc. contract, allowing Educational Services to carry out the state-approved Empathic Instruction modules as outlined in the Anti-bias Education Grant (2023).

Background:
NUSD Educational Services applied for the Antibias Education Program Grant in the summer of 2023 and was selected to receive the \$200,000 grant on August 30, 2023. The Antibias Education Grant Program provides funding for a grant period from Fiscal Year 2022-2023 through 2025-2026, and funding was granted based on the content and quality of the submitted applications and proposed activities. One of the state-approved activities within this grant included the coordination and delivery of three (3) Empathic Instruction 30-40 minute independent modules, which consist of online, scientifically researched activities that uncover mechanisms by which adults make sense of children's behaviors. These modules, which would occur in January 2024, August 2024, and January 2025, include survey questions, hypothetical scenarios, and feedback on teachers' mindsets. The content is developed by Dr. Jason Okonofua (social psychologist at the University of California, Berkeley) and his colleagues at Mindset Science Solutions. Their research on implementation shows reduced suspension rates, particularly for students of color, while also improving job satisfaction, a key predictor of teacher retention. By implementing these modules, Educational Services is following through on the state-approved grant proposal, aligning district initiatives to three district Board of Education goals (Student Achievement, Teacher and Staff Recruitment & Retention, & Safe, Secure, and Healthy Learning Environments), and addressing causes for ongoing eligibility under California's Differentiated Assistance. Currently NUSD qualifies for Differentiated Assistance based on five student groups who received the lowest status level in two or more state priority areas (English Learners, Homeless, Socio-economic disadvantaged, African American, and Pacific Islander); all five groups qualify under priority 6: suspensions. Measurement of programs will be based on 1. end of semester suspension data and 2. survey data focused on student/teacher relationships and teacher satisfaction.

In 1977, all school districts and county school offices were mandated to form consortiums in geographical regions of sufficient size and scope to provide for all special education service needs of children residing within the region's boundaries. Each region, Special Education Local Plan Area (SELPA), developed a local plan describing how it would provide special education services.
SELPA's are dedicated to the belief that all students can learn and that special needs students must be guaranteed equal opportunity to become contributing members of society. SELPA's facilitate high-quality educational programs and services for special needs students and training for parents and educators. The SELPA collaborates with county agencies and school districts to develop and maintain healthy and enriching environments in which special needs students and families can live and succeed.
The Mission Valley SELPA consists of three school districts: New Haven Unified, Newark, and Fremont Unified School Districts. The SELPA was formed for the purpose of ensuring that quality special education programs and services are available to students living throughout the area. All three school districts coordinate to provide services to identified students who require special education programs and services. The special education directors within each of the districts meet regularly to share resources and coordinate as related to shared program goals.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

 To approve the Services Agreement with Hanover Research.
 BACKGROUND

As part of our Goal 3 of our updated District Overarching Goals, we will present a public-facing data dashboard for our community, which includes both aggregated and disaggregated school climate data. Due to our current staffing shortage, we will need to contract with an outside vendor to accomplish this goal. Additionally, for Goal 4 of our updated District Overarching Goals, we will complete a Customer Satisfaction Survey. Hanover Research will conduct the independent survey. Lastly, and most importantly, as part of Goal 1, Hanover Research will provide critical student achievement data reports that are interactive and allow us to analyze multiple data sets, including sub-group data, to inform best practice for our teachers and principals. This is something that has been an ongoing challenge with our current student information system (SIS) and compounded by our staffing shortage.

		Authority is

Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting. When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

RATIFICATION AND APPROVAL OF TK ENROLLMENT: (Ed. Code, 48000 & 35146)

Type Action (Consent), Discussion, Information

Preferred Date Sep 19, 2023

Fiscal Impact No

Recommended To approve Transitional Kindergarten "expanded" students who shall reach age 5 after April 2, 2024 and before June 2.

Purpose:

The Board will review student information for approval of newly registered Transitional Kindergarten students who shall reach age 5 after April 2, 2024 and before June 2, 2024. These students are considered "expanded" TK students. The board will also consider admittance of "early enrollment" TK students, which includes students who reach age 5 after June 2, 2024. Starting with the 2023-24 academic school year, there are new requirements for both "expanded" and "early enrollment" TK students, which will be considered when determining whether or not NUSD has the capacity to admit students in these categories. This process will continue on a case by case basis for students who register within the extended window.

Background:

Education Code sections 48000 and 48010, and District Administrative Regulation (AR) 5111, requires the District to enroll any otherwise eligible student who turns age five or six on or before September 1 of a given school year into kindergarten or first grade, as applicable. In addition, if a student turns age five between September 2 and April 2 (for the 2023-2024 academic school year) of a school year, then that student shall be offered an opportunity to enroll in TK. The District may additionally admit younger children to TK "on a case by case basis." Education Code section 48000 specifically provides as follows:

(c)(1) As a condition of receipt of apportionment for pupils in a transitional kindergarten program... a school district shall ensure the following:

(c)(1)(D) In the 2023-24 school year, a child who will have their fifth birthday between September 2 and April 2 shall be admitted to a transitional kindergarten program maintained by the school district.

(c)(2)(A) In a school year, a school district may, at any time during a school year, admit a child to a transitional kindergarten program who will have their fifth birthday after the date specified... with the approval of the parent or guardian, subject to the following conditions:

(c)(2)(A)(i) The governing board of the school district determines that admittance is in the best interest of the child.

(c)(2)(A)(ii) The parent/guardian is given information regarding the advantages and disadvantages and any other explanatory information about the effect of this early admittance.

(c)(2)(B) Notwithstanding any other law, a pupil admitted to a transitional kindergarten program pursuant to subparagraph (A) shall not generate average daily attendance... until the pupil has attained the pupil's fifth birthday, regardless of when the pupil was admitted during the school year.

Consistent with the Education Code, the District's AR 5111 provides:

On a case-by-case basis, a child who will turn five years old in a given school year may be enrolled in kindergarten or TK at any time during that school year with the approval of the child's parent/guardian, provided that: (Education Code 48000)

1. The parent/guardian is given information regarding the advantages and disadvantages and any other explanatory information about the effect of this early admittance.

2. The Governing Board determines that admittance is in the best interest of the child.

For the 2023-2024 school year, the birthday for admittance has been extended to April 2, and will continue being extended by two months each school year, until the 2025-2026 school year, when any student with a birthday after September 1 must be admitted to TK.

Action Sufficiency of Instructional Materials

Background:
To certify compliance with Education Code Section 60119 (as revised by Chapter 704, Statutes of 2006 and California Code of Regulations (CCR), Title 5, Section 9531). In order to be eligible to receive instructional materials funds, the governing board of each district and county office of education is required to hold an annual public hearing and adopt a resolution stating whether each pupil in the district has sufficient textbooks or instructional materials in specified subjects that are aligned to the academic content standards and consistent with the content and cycles of the curriculum frameworks adopted by the state board. The public hearing was held on Sept. 5, 2023.
Under EC Section 60119, the governing board of every local educational agency that receives state instructional materials funds must hold an annual public hearing before the end of the eighth week from the first-day pupils attend school for that year. At the public hearing, the governing board must make a determination as to whether each pupil in each school has sufficient textbooks or instructional materials, or both, that are aligned to the content standards and are consistent with the content and cycles of the curriculum framework adopted by the State Board of Education in reading/language arts, mathematics, science, and history-social science.
Site principals reviewed the site's sufficiency of materials and affirmed.
Governing boards that have met the requirements of Education Code Section 60119 and have also certified compliance with the Instructional Materials Funding Realignment Program (IMFRP) requirements regarding the provision of adopted standards-aligned instructional materials for all students (Education Code Section 60422) may spend 100% of any remaining IMFRP funds from that years allocation for other approved purposes.

 The 4000 section of the district policy manual is triple coded to divide it into employee classifications: 4100s for certificated employees, 4200s for classified employees, and 4300s for management, supervisory, and confidential employees. Administrative Regulation 4112.4 (certificated employees) and Administrative Regulation 4212.4 (classified employees) both have the correct title, Health Examinations.
 Administrative Regulation 4312.4 (management) still has the old title, Tuberculosis Tests. The recommendation is to update the title to Health Examinations.
 Language and content in all three is exactly the same.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

11 STAFF REPORT

Attendance Update/Awareness

Type Information

Purpose:

Educational Services will update the Board on attendance data, goals, and progress monitoring tools.

Background:

Our country, state, and county are facing an attendance crisis. Prior to the pandemic, eight million students were chronically absent (missing 10% or more of the school year). That number has more than doubled. The adverse social, emotional and academic impact of missing too much school is highest among students and families most affected by educational inequities. Left unaddressed, chronic absence will dramatically increase the number of students struggling with reading, writing, and math and escalate drop out rates. (Attendance Works)

Newark Unified School District has been identified for Differentiated Assistance, along with many other districts in Alameda County, in large part due to continued high post-pandemic chronic absence rates. While the district continues to implement covid-19 protocols and procedures, Ed Services seeks to implement a plan that will continue to increase positive attendance rates back to pre-pandemic levels. This presentation provides a summary of our current attendance data and district-wide improvement initiatives.

12 PUBLIC HEARINGS

Public Hearing: Sufficiency of Instructional Materials

Type Procedural

Purpose:

For the Board of Education to provide an opportunity for the public to speak on the Sufficiency of Instructional Materials Resolution.

Background:

To certify compliance with Education Code Section 60119 (as revised by Chapter 704, Statutes of 2006 and California Code of Regulations (CCR), Title 5, Section 9531). In order to be eligible to receive instructional materials funds, the governing board of each district and county office of education is required to hold an annual public hearing and adopt a resolution stating whether each pupil in the district has sufficient textbooks or instructional materials in specified subjects that are aligned to the academic content standards and consistent with the content and cycles of the curriculum frameworks adopted by the state board. This is an annual process.

Under EC Section 60119, the governing board of every local educational agency that receives state instructional materials funds must hold an annual public hearing before the end of the eighth week from the first-day pupils attend school for that year. At the public hearing, the governing board must make a determination as to whether each pupil in each school has sufficient textbooks or instructional materials, or both, that are aligned to the content standards and are consistent with the content and cycles of the curriculum framework adopted by the State Board of Education in reading/language arts, mathematics, science, and history-social science.

Site principals reviewed the site's sufficiency of materials and affirmed. Governing boards that have met the requirements of Education Code Section 60119 and have also certified compliance with the Instructional Materials Funding Realignment Program (IMFRP) requirements regarding the provision of adopted standards-aligned instructional materials for all students (Education Code Section 60422) may spend 100% of any remaining IMFRP funds from that year's allocation for other approved purposes. The Board will later have the opportunity to approve Resolution 2023.24.06 - Sufficiency of Instructional Materials.

2022-23 Unaudited Actuals Financial Report

Type	Action
Recommended	The recommendation is that the Board approve the 2022-23 Unaudited Actuals Financial Report.
Action	

Purpose:
The purpose of this item is for the Board to review and approve the 2022-23 Unaudited Actuals Financial Report.

Background:
Assembly Bill 1200 requires that the prior year's unaudited actuals of revenues and expenditures be approved by the Board of Trustees (EC 42100). The unaudited actuals will be reviewed by independent auditors and presented in an annual independent audit report. The report includes the actual results of 2022-23 operations for all funds of the District and includes various supplemental schedules used to convert the District's fund-level statements into entity-wide statements in compliance with Governmental Accounting Standards Board Statement #34 (GASB 34).

The District must close its books for the 2022-23 fiscal year by September 15, 2023, and submit the financial statement to the Alameda County Office of Education which will review the information and forward it to the state. This report is prepared using the state software in a format approved by the California Department of Education (Standardized Account Code Structure, known as SACS). Individual SACS report forms are prepared for each of the District's funds. The financials present the 2022-23 revenues, expenses, assets, liabilities, and fund balances by the fund.

Resolution 23.24.08 Designating Certain General Funds as Committed Fund Balance for 2022-23

Type	Action
Recommended	The recommendation is that the Board of Education adopt Resolution 2023.24.08 Designating Certain General Funds as Committed Fund Balance for 2022-23.
Action	

Purpose:
To approve the designations to the fund balance as presented in Resolution 2023.24.08 Designating Certain General Funds as Committed Fund Balance for 2022-23.

Background:
As a result of the balance in the Public School System Stabilization Account, the statutory limitation on school district reserves has been triggered for the 2022-23 budget period, pursuant to Education Code (EC) section 42127.01(e). Beginning with the 2022-23 fiscal year, the district reserve cap requires that a school district's adopted or revised budget shall not contain a combined assigned or unassigned ending general fund balance of more than 10 percent of those funds. Assigned and unassigned balances within Fund 17 Special Reserve Fund for Emergency Purposes are included within the 10% reserve cap. Components of the fund balance designated as committed funds are not included in the 10% reserve cap. On September 15, 2022, the Board adopted Resolution 2022.23.07 designating \$11,935,656 in general funds as committed fund balance. Since the ending fund balance in the 2022-23 Unaudited Actuals resulted in an increase of about \$3.9 million, the committed fund balance designations for 2022-23 need to be modified in order to maintain the 10% reserve cap required for the 2022-23 fiscal year.

Regulation updated to clarify that the district may charge a fee to persons being tested to cover the cost of developing, administering, and grading the district proficiency test, include administrative leave related to dismissal and suspension proceedings and military leave as types of leaves for which the Superintendent or designee may request the Commission on Teacher Credentialing (CTC) to issue a Teaching Permit for Statutory Leave, and add a new section "Early Childhood Education Emergency Specialist Permit/Emergency Transitional Kindergarten Permit" (ETK) which reflects NEW LAW (AB 210, 2022) authorizing the district to request a one-year early childhood education emergency specialist permit which allows the teaching of

all subjects in a self-contained transitional kindergarten general education classroom. Regulation also updated to reference NEW LAW (SB 1397, 2022) which requires CTC, until July 1, 2024, to waive the basic skills proficiency requirement for the issuance of an emergency 30-day substitute permit and NEW LAW (AB 1876, 2022) which requires CTC to accept an alternative verification of substitute teaching as part of the requirements for initial issuance of an emergency career substitute teaching permit.

Revision of the Reclassification Criteria for English Learners

Type Action (Consent)
Fiscal Impact No

Recommended Action The recommendation is that the Board of Education approves the revision to NUSD Reclassification criteria for K-12th graders.

Purpose:

This item is being presented to the Board for approval of the NUSD Reclassification Criteria for the current school year (2023-24).

Background:

Reclassification is the process by which a student is reclassified from English Learner (EL) to fluent English proficient (RFEP). Per California Education Code (EC) Section 313 and Title 5 California Code of Regulations (5 CCR) section 11303, LEAs must use the following four criteria to establish their own reclassification policies:

- 1. Assessment of English language proficiency (ELP), using an objective assessment instrument, including, but not limited to, the state test of English Language Performance Assessment of California (ELPAC) or Alternative ELPAC;
2. Teacher evaluation, including, but not limited to, a review of the student's curriculum mastery;
3. Parent opinion and consultation; and
4. Comparison of student performance in basic skills against an empirically established range of performance in basic skills of English proficient students of the same age.

For criteria 1 above, the statewide standardized ELP is an Overall Performance Level (PL) 4 in the ELPAC. LEAs are to use the Overall PL 4 to determine whether a student has met that criteria. The other three criteria are for the LEAs to determine and establish local measurements. NUSD's approved reclassification criteria align with the state's first three criteria. For criteria 4, NUSD determined to use the following:

Elementary (K-5th):

District Benchmark Assessment in ELA: I-Ready score On or Above grade level, or SBAC ELA score within 5% of English Proficient average

Secondary (6th - 12th):

CAASPP: Most recent SBAC ELA score within 5% of English Proficient average, or PSAT Scores in Illuminate in Yellow or Green (only applies to 10th and 11th graders)
District Benchmark Assessment in ELA: I-Ready score On or Above grade level

RECLASSIFICATION OF ENGLISH LEARNERS WITH DISABILITIES

Considering all guidelines, criteria, resources, and the individual needs of each dual-identified English learner, the IEP team will determine the following:

- Appropriate measures of English language proficiency (ELP)
Appropriate measures of performance in basic skills
Minimum levels of proficiency that would be equivalent to an English proficient peer with similar disabilities in accordance with district reclassification policies

In accordance with federal and state law, the IEP team may address the individual needs of each English learner with a disability using multiple criteria in concert with district reclassification criteria:

- 1. Assessment of English language proficiency (ELP), using an objective assessment instrument, including, but not limited to, the state test of English Language Performance Assessment of California (ELPAC) or Alternative ELPAC;
2. Teacher evaluation, including, but not limited to, the student's classroom performance information based on his or her IEP goals for academics and ELD
3. Parent opinion and consultation; and
4. Comparison of student performance in basic skills
a. The IEP team should specify in the student's IEP an assessment of basic skills to meet the guidelines for reclassification (e.g., the California Alternate Assessment)
b. Other assessments may be considered that are valid and reliable and designed to compare basic skills of dual-identified ELs to native speakers of English with similar disability

Using this information the IEP team, including the parent and EL Site Contact, will decide whether or not to reclassify a student with disabilities. Other criteria may be used to supplement the four required criteria listed above to ensure the most appropriate decision is made for each student.

Resolution 2023.24.04 Adopting the 2022-23 and 2023-24 Gann Limit

Type Action

Recommended Action The recommendation is that the Board of Education adopt Resolution 2023.24.04 Adopting the 2022-23 and 2023-24 Gann Limit.

Purpose:

The purpose of this item is for the Board to approve Resolution No. 2023.24.04 Adopting the 2022-23 and 2023-24 Gann Limit.

Background:

The Gann limit was established by Proposition 4 in 1979. Simply put, the purpose of the limit is to keep per-person government spending under 1978-79 levels, adjusted for changes in population and inflation. For school districts, ADA is used to determine population. The limit is based on local property tax revenues and state aid received. If a school district's Gann limit is reduced, they do not lose funding.

School districts are required to adopt a resolution and file a Form GANN every year. Form GANN is part of the Unaudited Actuals SACS report submitted to the Alameda County Office of Education every year.

For reference, a School Services of California article and information from the California Department of Education (CDE), including FAQs, are attached.

Board Committees 2022-23

Table with 3 columns: Board Adopted on 12/15/2022, Representative, Alternate. The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting.

When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Budgeted	Yes
Budget Source	General Fund
Recommended Action	The recommendation is that the Board of Education approve the School Employers Association of California (SEAC) Joint Powers Agreement and Consultant Contract for Personnel Services.

Purpose:

The purpose is for the Board of Education to approve the Joint Powers Agreement and Contract for Services with School Employers Association of California (SEAC) to provide Human Resource services and support, including an Interim Executive Director of Human Resources, until the position can be filled permanently.

Background:

The cost includes the Joint Powers Agency (JPA) membership fee and an estimated cost for contract work, that includes hourly pay and expenses, until the Executive Director of Human Resources position can be filled permanently.

The Executive Director of Human Resources resigned effective July 28, 2023. The district is in need of Human Resources support, while this position is vacant. Steve Burrell is an experienced educational leader with a rich, 30-year journey in education. With a career spanning over two decades at Cupertino Union School District and the past six years at Union School District in San Jose, Steve has embraced a variety of roles, from teacher to principal to Assistant Superintendent of Human Resources. Throughout his journey, a resolute dedication to student-centered learning has been the driving force behind Steve's approach, ensuring that each decision and action taken aims to create impactful and enriching experiences for every student. Steve's strength lies in orchestrating cross-functional teams and fostering collaboration among all employees, while instilling a culture of creativity and development. Committed to propelling collective growth, Steve endeavors to nurture collaboration, creativity, and the success of all within the district, while conducting a search for a highly-qualified candidate for the position of Executive Director of Human Resources.

School Employers Association of California (SEAC) is a JPA comprised of school and community college districts. The mission of its member districts is to promote positive employer-employee relations in the public schools of California. SEAC will provide research, information and advice on all matters relating to collective bargaining, negotiations and related human resources issues. SEAC provides advanced training led by experienced superintendents and HR administrators, delivers specialized services (e.g., health benefit analyses and classification and compensation studies), and advocates on behalf of its members with the California Legislature, the Governor, and state agencies. Because it is a joint powers agency, SEAC can deliver all these services for a low annual membership and very competitive fees for services and training.

As a member of the SEAC Joint Powers Agency, our district will receive a variety of free services and the ability to attend trainings or contract with SEAC consultants at a reduced price.

As a new SEAC member, we will immediately receive:

- Weekly electronic updates on legal decisions, legislation, and key issues
- Timely information updates on breaking news
- Review of our districts collective bargaining agreement or a professional development activity

Upon request we will receive:

- Research on labor relations and negotiations issues

- Answers to questions related to negotiations, employee-employer relations, and personnel challenges
- Advice in human resources, governance, and leadership areas
- Compensation and job classification studies performed at discounted rates
- Health Benefits analysis, including one free analysis and discounted health benefits consultant services

Administrative Regulation 6174 - Education For English Learners

The NUSD board policy has not been revised since 2018. The language has been replaced to match the sample board policy provided by the California School Board Association.

CSBA Policy Guidesheet June 2023 states:

"Board Policy 6174 - Education for English Learners Policy updated to remove outdated material and reflect NEW LAW (SB 941, 2022) which permits a district to enter into an instruction collaboration agreement with another school district, county office of education, or charter school to offer the same or similar courses and coursework to students who have been impacted by teacher shortages, disruptions, or cancellations to science, technology, engineering, and mathematics classes, or dual language immersion programs.

Administrative Regulation 6174 - Education for English Learners Regulation updated to remove outdated material and reflect updated information from the California Department of Education's (CDE) English Learner Federal Program Monitoring 2022-23 Instrument, CDE's Reclassification Criteria website, and letters from CDE which provide updated reclassification guidance regarding the criteria used to determine whether an English learner should be reclassified, including a review of the student's curriculum mastery and academic performance, the provision of an interpreter for parents/guardians, when necessary, as part of the parent/guardian involvement, comparison of student performance on an objective assessment of basic skills in English against an empirically established range of performance in basic skills, based on the performance of English proficient students of the same age, which demonstrates whether the student is sufficiently proficient in English to participate effectively in a curriculum designed for students of the same age whose native language is English. Regulation also updated to include that the four years of post-reclassification monitoring should be utilized to ensure that students have not prematurely exited, any academic deficit incurred through participation in the English learner program has been remedied, and the students are meaningfully participating in the standard instructional program compared to students who had never participated in an English learner program. Additionally, regulation updated to clarify that the LCAP advisory committee provides input regarding exiting language acquisition programs and the possible establishment of other programs."

Approval of Single Plan for Student Achievement (SPSA) for Lincoln Elementary

Type	Action
Fiscal Impact	Yes
Dollar Amount	\$118,637.00
Budgeted	Yes
Budget Source	LCFF, Title 1, and LRE
Recommended Action	The recommendation is that the Board approve the Single Plans for Student Achievement (SPSAs) for 2023-24 as presented

Purpose:
Purpose: We seek the Board of Education's approval of the Single Plan for Student Achievement for Lincoln Elementary School.

Background:
 The School Plan for Student Achievement (SPSA) is a plan of action to improve student academic performance by coordinating all educational services and resources. Pursuant to California Education Code Section 64001, schools that receive state and federal funds are required to consolidate all school plans into a SPSA. SPSA specifics are also included in the Federal Program Monitoring process. The SPSA is used to meet planning requirements for Title I School wide Programs (SWP), Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI). California Education Code (EC) Section 64001 requires that a School Site Council (SSC) develop the SPSA.
 It is the goal of Newark Unified School District (NUSD) to provide equitable opportunities to each of our students and school sites. Each site-specific SPSA and the district-wide Local Control and Accountability Plan (LCAP) is a roadmap created in partnership with all district stakeholders to achieve our vision and mission.
 The SPSAs are informed by data. Each goal area includes data analysis on current measures across student subgroups and on outcome measures to determine progress. Local and State data are used to develop each goal and research is used to identify best practices to address student needs. Progress is evaluated through the School Site Councils (SSCs). The SSCs meet to review SPSA goals, actions, and budgets. California Dashboard data and other local data is used to measure the impact of actions on student achievement. The principal and staff evaluate academic progress at minimum three times a year through an academic Professional Learning Community (PLC) model with benchmark data. Educational Partners are key in the development of the SPSAs. California Education Code Section 64001 requires that the School Site Council (SSC) develop the SPSA. The SSCs responsibilities include approving the plan, recommending it to the local governing board for approval, monitoring its implementation, and evaluating the effectiveness of the plan at least annually. The SSC must seek the review, advice, and certification of applicable advisory committees, including the English Learner Advisory Committee (ELAC).

Background:

The Board approved and adopted the District's 2023-24 budget on June 15, 2023, which was prior to the Governor signing the 2023-24 State Budget.

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.
A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting. When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

9 STAFF REPORT

Presentation on the 2023-24 California Dashboard Local Indicators

Type Discussion, Information

Purpose:

The administration presents California Dashboard Local Indicators for Newark Unified School District.

Background:

Each year the California Department of Education prepares and releases the California Accountability Dashboard, consisting of state and local indicators of status and growth for California schools and Districts. The State Board of Education (SBE) has approved standards for the local indicators that support school districts in measuring and reporting their progress within the appropriate priority area. For each local indicator, the performance standards are as follows:

- Annually measure its progress in meeting the requirements of the specific LCFF priority
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP

Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator

Five indicators based on information collected by school districts, county offices of education and charter schools regarding LCFF priorities:

- Priority 1: Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials and Safe, Clean and Functional School Facilities
- Priority 2: Implementation of State Academic Standards
- Priority 3: Parent Engagement
- Priority 6: School Climate
- Priority 7: Access to a Broad Course of Study

The collection and reflection on locally available information relevant to progress regarding local priority areas will support districts in completing the self-reflection tools, reporting in the Dashboard, and in local planning and improvement efforts.

Recommended	The recommendation is that the Board of Education adopt the 2023-24 Budget, Resolution

Action 2022.23.31, and the Public Hearing Reserve Disclosure Certificate, and certify that the budget was developed using the State-adopted Criteria and Standards.

Background: Following a mandated public hearing, held June 1, 2023, on the 2023-24 Proposed Budget, the Board will consider adopting the District budget. The most significant items that will impact this budget are the final enacted State budget, the actual closing of the books for the 2022-23 fiscal year, and the actual 2023-24 enrollment and attendance in the Newark Unified School District. Once the Legislature reaches a compromise on the 202324 State Budget Act, each house will need to approve the budget bill by June 15. The Governor will then have 12 days to sign the budget bill as presented, approve the budget bill with line-item reductions, or veto the budget bill and send it back to the Legislature. The District will have 45 days from the date the Governor signs the budget to make public any significant revisions it decides to make to the Adopted Budget based upon the State's enacted budget.

Approval of Single Plan for Student Achievement (SPSA), Part 2

Type	Action
Fiscal Impact	Yes
Dollar Amount	\$2,212,811.00
Budgeted	Yes
Budget Source	LCFF, Title 1, and LRE
Recommended Action	The recommendation is that the Board approve the Single Plans for Student Achievement (SPSAs) for 2023-24 as presented.

[Purpose:](#)

Purpose: We seek the Board of Education's approval of the Single Plan for Student Achievement for the following schools; Newark Junior High, Coyote Hills Elementary, and Schilling Elementary. The dollar amount presented represents the total SPSAs dollar allocations across all NUSD school sites (part I and part II).

[Background:](#)

The School Plan for Student Achievement (SPSA) is a plan of action to improve student academic performance by coordinating all educational services and resources. Pursuant to California Education Code Section 64001, schools that receive state and federal funds are required to consolidate all school plans into a SPSA. SPSA specifics are also included in the Federal Program Monitoring process. The SPSA is used to meet planning requirements for Title I School wide Programs (SWP), Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI). California Education Code (EC) Section 64001 requires that a School Site Council (SSC) develop the SPSA.

It is the goal of Newark Unified School District (NUSD) to provide equitable opportunities to each of our students and school sites. Each site-specific SPSA and the district-wide Local Control and Accountability Plan (LCAP) is a roadmap created in partnership with all district stakeholders to achieve our vision and mission.

The SPSAs are informed by data. Each goal area includes data analysis on current measures across student subgroups and on outcome measures to determine progress. Local and State data are used to develop each goal and research is used to identify best practices to address student needs. Progress is evaluated through the School Site Councils (SSCs). The SSCs meet to review SPSA goals, actions, and budgets. California Dashboard data and other local data is used to measure the impact of actions on student achievement. The principal and staff evaluate academic progress at minimum three times a year through an academic Professional Learning Community (PLC) model with benchmark data. Educational Partners are key in the development of the SPSAs. California Education Code Section 64001 requires that the School Site Council (SSC) develop the SPSA. The SSC's responsibilities include approving the plan, recommending it to the local governing board for approval, monitoring its implementation, and evaluating the effectiveness of the plan at least annually. The SSC must seek the review, advice, and certification of applicable advisory committees, including the English Learner Advisory Committee (ELAC).

California School Board Association notations can be seen in the documents for the benefit of the Board. These notations will be removed from the final, Board approved policies. The administration has reviewed the recommended updates for accuracy and made revisions to reflect district practice. If any revisions are recommended by the Board, the policy will be brought back to the Board of Education for a second reading. Policy updated to reflect NEW COURT DECISION (Kennedy v. Bremerton School District), in which the U.S. Supreme Court held that the district's decision not to rehire a high school coach who refused to follow district direction to refrain from offering prayers openly in the presence of students after football games, violated the employee's free exercise and free speech rights. Policy also updated to include types of retaliation prohibited when an employee is acting solely to protect a student engaged in conduct authorized by Education Code 48907 (freedom of speech and press) or 48950 (speech and other communication), and clarify that an employee is prohibited from using official authority status or influence to attempt to intimidate, threaten, coerce, or command another employee for the purpose of interfering with that employee's right to disclose improper governmental activity.

The following derives directly from the Board approved "Governance Team Handbook"

Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting. When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

Approval of Single Plan for Student Achievement (SPSA), Part 1

Type Action

Fiscal Impact Yes

Dollar Amount \$2,212,811.00

Budgeted Yes

Budget Source LCFF, Title 1, and LRE

Recommended The recommendation is that the Board approve the Single Plans for Student Achievement Action (SPSAs) for 2023-24 as presented.

Purpose:

Purpose: We seek the Board of Education's approval of the Single Plan for Student Achievement for the following schools; Birch Grove Primary, Birch Grove Intermediate, Bridgepoint Continuation High School, Crossroads Independent Study School, Kennedy Elementary, and Newark Memorial High School. The remaining schools will be presented at the June 15th Board of Education Meeting. The dollar amount presented represents the total SPSAs dollar allocations across all NUSD school sites (part I and part II).

Background:

The School Plan for Student Achievement (SPSA) is a plan of action to improve student academic performance by coordinating all educational services and resources. Pursuant to California Education Code Section 64001, schools that receive state and federal funds are required to consolidate all school plans into a SPSA. SPSA specifics are also included in the Federal Program Monitoring process. The SPSA is used to meet planning requirements for Title I School wide Programs (SWP), Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI). California Education Code (EC) Section 64001 requires that a School Site Council (SSC) develop the SPSA.

It is the goal of Newark Unified School District (NUSD) to provide equitable opportunities to each of our students and school sites. Each site-specific SPSA and the district-wide Local Control and Accountability Plan (LCAP) is a roadmap created in partnership with all district stakeholders to achieve our vision and mission.

The SPSAs are informed by data. Each goal area includes data analysis on current measures across student subgroups and on outcome measures to determine progress. Local and State data are used to develop each goal and research is used to identify best practices to address student needs. Progress is evaluated through the School Site Councils (SSCs). The SSCs meet to review SPSA goals, actions, and budgets. California Dashboard data and other local data is used to measure the impact of actions on student achievement. The principal and staff evaluate academic progress at minimum three times a year through an academic Professional Learning Community (PLC) model with benchmark data. Educational Partners are key in the development of the SPSAs. California Education Code Section 64001 requires that the School Site Council (SSC) develop the SPSA. The SSC's responsibilities include approving the plan, recommending it to the local governing board for approval, monitoring its implementation, and evaluating the effectiveness of the plan at least annually. The SSC must seek the review, advice, and certification of applicable advisory committees, including the English Learner Advisory Committee (ELAC).

Action	curriculum for Newark Unified School District.

Purpose:
Character Strong, a comprehensive Social-Emotional Curriculum, is designed for students in grades TK-12 at both the elementary and secondary levels. The curriculum is updated each year and includes relevant topics for students, including character education, navigating social media, and dealing with emotions as a result of the pandemic. The curriculum includes ready-made videos, lessons, and supplementary resources for teachers. Students and teachers have voiced significant interest in having an SEL curriculum and with Character Strong, Newark Unified will have a comprehensive vertically-aligned SEL curriculum TK-12. Focusing on the mental health of our students stands as one of the district's three instructional priorities.

Background:
As a result of the pandemic, educators and leaders at the state and county level strongly recommend creating a space for students to engage in Social-Emotional Learning. Teachers and students alike have requested an SEL curriculum to create a space to engage in relevant topics that are not covered in traditional academic courses. Moving forward with Character Strong will allow Newark Unified teachers to have a comprehensive vertically-aligned SEL curriculum for grades TK-12 for the 2023-2024 school year. At this time, Educational Services is bringing forward the elementary portion of this curriculum.

Central State University College of Education MOU Regarding Student Teachers

Type	Action
Preferred Date	Jun 01, 2023
Absolute Date	Jun 01, 2023
Recommended Action	The recommendation is that the Board of Education approve the Central State University College of Education MOU Regarding Student Teachers.

Purpose:

The purpose of this item is for the Board of Education to approve the MOU between Central State University College of Education and Newark Unified School District regarding student teachers.

Background:

The District works closely with local institutes of higher education (IHE) and supports student teacher placements and interns. Agreements between Newark Unified School District and a university must be in place before a student teacher or intern can be placed at a school site in the District.

Student teachers and interns in training do fieldwork in our schools and are supervised by the administrators who provide supervision and training.

Student teachers and interns are able to learn, practice teaching, and fine-tune their craft under the direct supervision of a master teacher. The opportunity to student teach or intern in the District benefits both the student teacher and the District. As vacancies become available in the district, it is invaluable to have the opportunity to observe directly student teachers and interns who may be eligible to interview for vacancies and observe how well they fit into the culture of Newark.

CDW-G Wifi Equipment Purchase

Dollar Amount	\$244,892.50
Budgeted	Yes
Budget Source	Learning Recovery Emergency Block Grant
Recommended Action	The recommendation is that the Board of Education approve the purchase of wifi hardware equipment from CDW-G as part of the wifi improvement project at Newark Memorial High School as presented.

Purpose:

To replace the vendor for the purchase of controllers and access points for the wifi improvement project at Newark Memorial High School.

Background:

At the February 2, 2023 Board meeting, the Board approved the purchase and installation of the controllers and access points from Colligo Systems LLC as part of the wifi improvement project at Newark Memorial High School. Unfortunately, due to unforeseen circumstances, Colligo is unable to provide the hardware equipment portion of the purchase order. Staff consequently received two quotes from alternate vendors for the hardware equipment. The recommendation is that the Board approve the purchase of the hardware equipment from CDW-G who provided the lower quote of \$244,892.50. This quote is comparable to the original cost that was previously awarded to Colligo Systems. The pricing from CDW-G is based on a piggyback contract with the California State Department of General Services and the Utah NASPO ValuePoint Master Agreement Number AR3288.

The following derives directly from the Board approved "Governance Team Handbook" Authority is Collective, Not Individual:

The only authority to direct action rests with the Board as a whole when seated at a regular or special board meeting. Outside of this meeting, there is no authority.

A majority Board vote provides direction to the Superintendent. Board members will not undermine the ability of staff to carry out Board direction.

Bringing New Ideas Forward

The Board will be open to having "brainstorming" discussions, or study sessions, around any idea that a Trustee may feel merits exploratory consideration. "New Ideas" are defined as any proposal brought forward by a Trustee, at their initiative or at the request of a constituent, which was previously discussed during a board meeting.

Trustees will first notify the Board President and Superintendent of their interest in bringing forward a new idea at a board meeting. When initially agendized, the preliminary discussion of a new idea will not require staff research time. Initially, staff will be expected to respond to new ideas based on current knowledge.

Only a majority of the Board may direct the Superintendent to conduct research regarding the exploration of a new idea. The Superintendent will decide on the delegation of assignments to District staff.

The new idea may be agendized for discussion only. The Board majority will decide if the new idea should be further developed and studied by staff. The Board majority will decide if staff time should be invested in the "fleshing out" of new ideas.

Individual Trustees, in the course of interactions with constituents, will be careful not to make or imply the commitment of the full Board to explore or proceed with implementing new ideas.

3 STUDY SESSION

Property Asset Management

Type Discussion, Information

Purpose:

To (1) review the process and options for considering how best to manage District real estate and (2) to provide the staff guidance regarding next steps.

Background:

On June 16, 2022, the Board held a study session on the topic of managing , and Clarissa Canady from the DWK law firm presented the process and options for disposing of unused school properties. At that study session, the Board gave staff direction to pursue consulting services. Attached is the Request for Proposals (RFP) generated by staff in February 2023. This RFP is being shared as a point of reference only, and we are not asking the Board to approve it at this time. Given that nearly a year has passed since the Board has discussed this topic and there are now three new members of the Board, we are expecting to "start over" with a presentation from Ms. Canady and a preliminary discussion of board member questions and interests. We have asked Ms. Canady to broaden the scope of last year's presentation to include leasing options and potential agreements/partnerships with non-profit organizations.

As further background, in the fall of 2018, the District hired Plum Architects to examine the prospect of moving the District Office to the Whiteford Building on the MacGregor Campus. At the April 4, 2019, board meeting, Plum Architects shared preliminary plans and an estimate of \$4.2M in costs for the relocation. Staff believes that this cost estimate discouraged future pursuit of this course of action. Staff does not recommend moving the district office now or in the foreseeable future.

STEAM Initiative Update (STAR and NewGO!)

Type Information

Purpose:

Present the highlights of the activities of NUSD's STEAM Initiative, specifically updates on STAR and NewGO! initiatives in 22-23.

Background:

The STEAM Resolution of 2018 laid the foundation for the STEAM Initiative established in 2020. Two components of the STEAM Initiative are: STAR & NewGO!

Newark Goes Outdoors (NewGO!) is grounded in the Newark USD Environmental Literacy Plan. Its vision states: All students will have access to high-quality environmental literacy learning experiences based in inquiry, reflection, and real-life applications, utilizing safe and available outdoor spaces (e.g. school gardens, parks adjacent to schools) that engage students in engineering and design thinking to prototype solutions for real-world environmental justice issues in the community.

Science Technology Aerospace and Robotics (STAR) is focused on the establishing a TK-12 focus on computer science by developing computational thinking and engineering. In 22-23, the STAR Elementary Cohort was established. Its main goal was to support the teachers who enrolled in "Creating Conditions for Equity through Computer Science" and provide on-going professional learning opportunities elementary classroom teachers. Through this school year, the Tech TOSA under the supervision of the Program Administrator for Science, provided group and/or individualized mentoring to elementary classroom teachers. They both presented at all six elementary staff meetings, and collaborated with teachers who showed an interest in integrating computational thinking, unplugged computer science activities, and/or coding into their classroom instructional design. Three teachers will share their experience working with the Tech TOSA and describe the impact of the unplugged computer science activities and coding on their students. By supporting students in accessing computer science principals early through elementary activities and makerspaces and middle school robotics and coding classes, Educational Services aims to reduce gendered and racial disproportionality in students who enroll in classes such as AP Computer Science and who ultimately earn their Certificate of Code in high school.

POLICY UPDATE: Board Policies and Administrative Regulations Title Changes

Type Action, Procedural
Recommended The recommendation is that the Board of Education approve the Board Policy and
Action Administrative Regulation title changes, as presented, to align with California School Board
Association titles.

Purpose:
The purpose is for the Board of Education to review the recommended title changes and approve the updated titles for the board
policies and administrative regulations as presented.

Background:
This is the FIRST reading of the attached policies and regulations. The title changes are sanctioned by the California School Board
Association (CSBA). It is important to note that staff is proposing changes in titles only, not changes to any of the content of
these policies and administrative regulations.
In October of 2020, CSBA announced a transition to a new Board Policy platform, GAMUT Policy Plus. This platform is an upgrade
to and replacement for our previous Manual Maintenance service. GAMUT Policy Plus includes new features that make it simple,
fast and effective to manage and update board policies.
The GAMUT Policy Plus platform relies on consistent policy titles and numbering across all districts. This allows CSBA to push
updates directly to us, makes it simple for us to edit and adopt policy updates into our manual and allows CSBA to maintain
consistent Legal references and citations.
The titles presented here are from our old manual and do not match the titles that CSBA assigned to that policy number in the
codification system that underpins GAMUT Policy Plus. As a result, the system did not recognize these policies when they were
transferred from the old platform. These policies were imported as drafts and now need to be retitled to match the title that
CSBA uses. (Note: Policy and regulation titles that begin with a '^' designate them as unique to Newark and will be updated with
the symbol in the title).
The language and/or content of the policies and regulations presented here are not being updated at this time. Should any of
these policies or administrative regulations need content updates, those policies will be reviewed by staff and brought back at a
future meeting with recommended language changes.

Wellness Together Contract Extension (2023-2024)

Type Action
 Fiscal Impact Yes
 Dollar Amount \$251,465.76
 Budgeted Yes
 Budget Source LCAP and MHSSA Grant Funds
 Recommended Action The recommendation is that the Board of Education approve the Wellness Together and HearYou.org Contract for 23-24.

 1. Ensure that ALL students in need have access to mental health services (vacancies, health insurance barriers, etc.) and increase the frequency of support from academic counselors.
 2. Continue to fund (increase and/or address vacancy issues that we experienced this year) in order to provide mental health services for ALL.
 3. Increase frequency of counselor-student conferences.

Updated School Lunch Prices 2023-2024

Type	Action
Recommended	The recommendation is that the Board of Education approve the updated fees for school
Action	meals, effective for the 2023-2024 school year, as presented.

Purpose:
 To increase school lunch prices in order to be in compliance with the 2023-2024 USDA Paid Lunch Equity Requirement. At this time, NUSD Child Nutrition is not meeting the required weighted average of \$3.56.

Background:
 Regulation 7 CFR 210.14 (e) requires school food authorities (SFAs) participating in the National School Lunch Program to ensure sufficient funds are provided to the nonprofit school food service account for meals served to students not eligible for free or reduced-price meals. There are two ways to meet this requirement: changing the prices charged for "paid" meals, or through other non-Federal sources provided to the nonprofit school food service account.
 Although students will continue to receive free meals based on the current California Department of Education guidance which allows for free meals to all students no matter their status, they are required to pay for their second meal. We are requesting to increase the prices for school lunches in order to remain in compliance with the USDA guidance from the Paid Lunch Equity tool. We are requesting that the all school second meal prices increase, which will put us in compliance with the current guidance.
 Elementary School Second Lunch Prices will increase from \$3.00 to \$3.25 (\$0.25 increase)
 Newark Junior High School Second Lunch Prices will increase from \$3.50 to \$3.75 (\$0.25 increase)
 Newark Memorial High School Second Lunch Prices will increase from \$3.75 to \$4.00 (\$0.25 increase)
 Increasing lunch prices will increase revenues in the National School Lunch Program and that will ensure more monies to the nonprofit school food service account and allow them to avoid impinging on the general fund.

 Measures are needed to make Adult Community Education fiscally solvent. Staff recommends a three (3) year fee structure that increases fees 5% over three years.
 The last Adult Education Community Classes Fee Increase was approved by the Board of Education on November 6, 2018.

Administrative Regulation 5126 - Awards For Achievement
The NUSD administrative regulation has not been revised since 2015. The language has been replaced to match the sample board policy provided by the California School Board Association.
Language from the guide sheet provided by CSBA are as follows:
BP/AR 5126 - Awards for Achievement (12/20)
(BP/AR revised 12/20)
Policy updated to add optional language for the presentation of biliteracy awards to students who are English learners upon their reclassification as fluent English proficient. New optional section on "State Seal of Civic Engagement" addresses awards for students who have demonstrated excellence in civics education and participation and an understanding of the U.S. Constitution, the California Constitution, and the democratic system of government. Policy also clarifies that a district committee established by the board to administer a scholarship and loan fund is subject to the open meeting requirements of the Brown Act. Regulation updated to add eligibility criteria for the Golden State Seal Merit Diploma which had been removed while the criteria were in flux. Regulation also adds eligibility criteria for the State Seal of Biliteracy and reflects NEW LAW (SB 98, 2020) which authorizes the

Superintendent of Public Instruction to provide alternative criteria for students on track to graduate in 2020 or 2021 who were not able to take the English Language Proficiency Assessments for California or who did not receive a letter grade in English language arts due to COVID-19, and waives the requirement to take the California Assessment of Student Performance and Progress for students who were not able to take the exam. New section on "State Seal of Civic Engagement" includes eligibility criteria, clarifies that the state criteria establish a framework for the development of qualifications based on local contexts, and adds material regarding the provision of insignias.

(BP/AR revised 4/15)

Updated policy, mandated for districts that maintain a scholarship and loan fund, includes material formerly in AR re: board responsibilities related to the scholarship and loan fund. Material related to selection of the scholarship and loan committee revised to delegate to the Superintendent the appointment of staff, community, and student representatives. Updated regulation deletes detailed eligibility criteria for the Golden State Seal Merit Diploma and State Seal of Biliteracy, as these criteria are in transition.

(BP/AR revised 3/12)

Policy updated to reflect NEW LAW (AB 815) which establishes a State Seal of Biliteracy to recognize high school graduates who have attained a high level of proficiency in one or more languages in addition to English. Policy also contains optional language for districts that choose to provide "pathway awards" recognizing benchmarks toward biliteracy at earlier grade levels.

MANDATED regulation updated to reflect eligibility criteria and other requirements for State Seal of Biliteracy as added by AB 815. Regulation also adds optional general rules governing student applications for the district's scholarship and loan fund and optional notifications to inform students of eligibility requirements for various awards.

(Revise BP/AR (3/09))

Updated policy clarifies the purpose and process of awarding the Golden State Seal Merit Diploma, and adds new optional section on "Biliteracy Award" to recognize student proficiency in one or more languages in addition to English. MANDATED regulation updated to revise section on "Golden State Seal Merit Diploma" to specifically state the eligibility requirements and add submission of insignia request to the CDE. Regulation also includes new optional section on "Biliteracy Award" with sample eligibility criteria.

CONTRACT: Rodan Builders, Inc.- Phase 2 HVAC Replacement Project at Birch Grove Primary, Coyote Hills Elementary, Kennedy Elementary

Type	Action
Fiscal Impact	Yes
Dollar Amount	\$175,080.00
Budgeted	Yes
Budget Source	Fund 25 Capital Facilities Fund
Recommended Action	The recommendation is that the Board of Education reject all bids and award the contract for Phase 2 HVAC Replacement Project at Birch Grove Primary, Coyote Hills Elementary and Kennedy Elementary to Rodan Builders, Inc. as presented.

Purpose:

To authorize district staff to award a contract to Rodan Builders, Inc. for the Phase 2 HVAC Replacement Project at Birch Grove Primary, Coyote Hills and Kennedy.

Background:

The Phase 2 HVAC replacement project at BGP (1 unit), Kennedy (2 units) and Coyote Hills (2 units) will replace a total of 5 units. This will be the last phase of this project.

On February 17, 2022, the Board of Trustees reviewed the preliminary budget for the Phase 2 projects in the amount of \$2,431,193. Since that time, there has been a dramatic increase in the cost of HVAC equipment which was ordered in March 2022. All HVAC units have been delivered for the elementary school projects. Other impacts that have increased costs include escalation and smaller scale of scope. Prior HVAC projects have had more units in each bid package which provided an economy of scale. As we reach the end of the HVAC projects, there are fewer units that need to be installed.

To provide opportunities to smaller contractors, separate bid packages were created for each school.

The project has undergone a competitive bidding process. A Notice to Bidders was placed in Plan Rooms on March 17, 2023. A mandatory pre-bid conference occurred on March 23, 2023 where two (2) contractors attended. Bids were publicly opened on April 4, 2023.

On April 4, 2023, one (1) bid was received from Trahan Mechanical, for each school, for a total of \$280,600:

Trahan Mechanical	
Birch Grove Primary	\$102,400
Coyote Hills	\$75,700
Kennedy	\$102,500
Total	\$280,600

Per the California Uniform Public Construction Cost Accounting Act (CUPCAA), the District may negotiate contracts if less than or equal to \$60,000 per project. Other contractors were solicited with the following results:

Rodan Builders, Inc.	
Birch Grove Primary	\$59,600
Coyote Hills	\$56,190
Kennedy	\$59,290
Total	\$175,080

Rodan Builders' price provides significant savings to the District. Staff recommends rejecting all bids and awarding to Rodan Builders, Inc.

The action items are:

The Board reject all bids for the BGP, Coyote Hills and Kennedy HVAC Phase 2 projects opened on April 4, 2023.

The Board award contracts to Rodan Builders, Inc. in the amounts of \$59,600 at BGP, \$56,190 at Coyote Hills and \$59,290 at Kennedy for a total of \$175,080.

Prior HVAC projects have had more units in each bid package which provided an economy of scale. As we reach the end of the HVAC projects, there are fewer units that need to be installed. During the review and approval process with DSA, the addition of anchor posts on the roof for safety was required, which increased the cost of the project. The project has undergone a competitive bidding process. A Notice to Bidders was publicly advertised in the Argus Newspaper on March 3, 2023, and March 10, 2023. Mandatory pre-bid conferences occurred on March 8 and 15 where five (5) contractors attended. Bids were publicly opened on April 4, 2023. On April 4, 2023, two (2) bids were received.
